232. The Gate-Keeper, as soon as he hears a whistle sounding continuously or receives notice of any prisoner having escaped, or of a disturbance having taken place or being imminent, shall order the sentry to fire his musket into the air and to sound the alarm, and shall send immediate notice to the Jailer.

233. The Gate-Keeper shall endeavour by every means in his power to prevent the embezzlement of any prison property and the admission of unauthorized or prohibited articles.

The totals of each gang shall be signed by the officer, and the Gate-Keeper shall enter in words in the gate-book the number of prisoners sent out in each gang and the name of the warden in charge. This entry shall be signed by the warden in charge of the gang. The Gate-Keeper shall then open the wicket in the outer gate and count the prisoners when passing them out to verify the total. Every change in the gang must be noted by the upper subordinate in the register of outgangs and recorded by the Gate-Keeper in the gate-book.

(b) On passing the prisoners into the prison, the Gate-Keeper shall open the outer wicket and admit the gang into the passage between the gates. He shall then lock the outer gate and after searching every prisoner shall call out the name of each prisoner, as recorded in the register of outgangs. The gang having been found correct, he shall open the inner wicket and count the prisoners as they pass into the prison to verify the total.

239. The Gate-Keeper shall not allow to pass out of the prison any prisoner who is not in custody of a prison officer duly authorized to take him outside.

245. The Gate-Keeper shall enter, in the case of articles passed into or out of the prison, their description and number or weight, and the name of the officer or person in whose charge the articles are passed in or out.

246. The Gate-Keeper shall write in the gate-book, in tabular form, a daily statement of the prison population, showing the balance of prisoners from the previous day, the number admitted and the number released, died or otherwise disposed of, and the balances struck, which should correspond with the number of prisoners locked up.

268. Each article of uniform except the belts and brass badges shall become the property of the warder concerned after it has been in use for the period prescribed for the renewal, but not until another has been supplied in place of it.

269. Warders shall be supplied with a ticket in the prescribed form in which the date of issue of each article of uniform shall be recorded. The date of issue of great-coats, jerseys and gold fringes should also be noted in the service book of the warders concerned for facility of reference in case the ticket is lost.

270. (a) The Head Warder in charge of the Reserve Guard shall instruct all warders in the proper methods of putting on uniforms and accoutrements and pugri-tying.

(b) The following instructions shall be observed in wearing uniforms:—

Housse shall be worn properly pulled down and the slack part gathered in two neat folds under the belt on each side and not at the back.

Knicker-bockers shall be tied below the knees; the *putties* should lap well up over them.

Putties shall be put on tightly, commencing from below and working up. The folds should be equidistant and all made one way, and should be brought as near as possible to the knee-cap.

271. Warders, when on duty, shall be properly and correctly dressed and, when off duty, shall wear either uniform or private clothes and shall not leave their quarters dressed partly in uniform and partly in private clothes.

272. Temporary warders shall not wear uniform. They shall be dressed in clean private clothes, but shall wear a khaki turban with a blue fringe, and a belt.

274. A warder, when proceeding on leave for a period of one month or more, shall make over his articles of uniform to the Reserve Head Warder, who will see that they are neatly folded and that a label showing the owner's name and the contents is affixed to the bundle. In no case should these uniforms be issued to substitutes or to temporary warders.

During the monsoon, the clothes should be aired at least once a fortnight when the weather is fair.

275. The outfit of warders who have resigned, been dismissed or have died will be made over to their successors. Any necessary repairs will be executed by the prison free of charge. In the case of death from infectious disease, the clothing shall be destroyed under the orders of the Superintendent.

276. The blouses and other articles of uniform shall be altered by convict labour so as to fit warders, and any damage by fair wear shall be repaired by convict labour free of cost.

- (a) *nationality*, as
 - (1) Indian, and
 - (2) European or Anglo-Indian;
- (b) *sex*, as
 - (1) Male, and
 - (2) Female;

 - (2) adolescents up to the age of 21, and
 - (3) adults; and
- (d) *offence*, as
 - (1) civil, and
 - (2) criminal.

278. The term "civil prisoner" includes—

- (1) a judgement-debtor confined under a warrant in execution of a decree of a civil court;
- (2) a revenue defaulter detained in custody under the Ajmer-Merwara Land and Revenue Regulations; and
- (3) generally any prisoner other than a criminal prisoner.

279. Criminal prisoners are classified as—

- (1) Under-trial prisoner, or
- (2) Convicted prisoner.

280. The under-trial prisoners are classified according to their social status, as

- (1) "superior class"; and
- (2) ordinary.

The "ordinary class" has two sub-divisions, viz.:—

- (1) "Casuals"—those who have not been convicted before;
- (2) "Habituals"—those who have been convicted before or are members of a criminal tribe.

281. The convicted criminals are classified, in respect of—

(a) *Social status and mode of living, as*

- (1) Class A,
- (2) Class B, and,
- (3) Class C.

The authority to award Class A or Class B treatment rests with the Provincial Government on the recommendations of the District Magistrate and the convicting Court.

N.B.—Rules for the treatment of Classes A and B convicts are given in Chapter XIII.

(b) *The nature of the offence committed and previous history, as*

- (1) casuals, and
- (2) habituals.

This classification is made by the convicting Courts.

(c) *The punishment awarded, as*

- (1) convicts sentenced to simple imprisonment,
- (2) convicts sentenced to rigorous imprisonment or transportation, and
- (3) convicts sentenced to death.

Convicts sentenced to death are kept in separate cells under a special guard.

282. Lunatics are also received in the Ajmer Central Prison. They may be—

- (1) non-criminal, or
- (2) criminal.

The criminal lunatics are divided into three classes, A, B and C. For their definitions see the chapter "Lunatics". They are kept separate from other prisoners.

283. The following prisoners shall be liable to be classified as "habitual criminals", namely:—

- (1) Any prisoner convicted of an offence whose previous conviction or convictions under Chapters XII, XVI, XVII or XVIII of the Indian Penal Code taken by themselves or with the facts of the present case show that he habitually commits an offence or offences punishable under any or all of those chapters;
- (2) Any prisoner committed to or detained in prison under section 123 (read with section 109 or section 110) of the Code of Criminal Procedure, 1898;
- (3) A prisoner convicted of any of the offences specified in clause (1) above when it appears from the facts of the case even though no previous conviction has been proved, that he is by habit a member of a gang of dacoits or of thieves or a dealer in slaves or in stolen property;
- (4) Any member of a criminal tribe;

- (5) Any prisoner convicted of an offence and sentenced to imprisonment under the corresponding section of the Indian Penal Code and the Code of Criminal Procedure, 1898, as applied by order under the Indian (Foreign Jurisdiction) Order in Council, 1902, or by authority of any Prince or State in India;
- (6) Any prisoner convicted by a court or tribunal acting outside India under the general or special authority of His Majesty of an offence which would have rendered him liable to be classified as an habitual criminal if he had been convicted in a court established in British India.

Explanation.—For the purpose of this definition the word "conviction" shall include an order made under section 118 read with section 110 of the Code of Criminal Procedure, 1898.

284. The classification of a convicted prisoner as an habitual criminal should ordinarily be made by the convicting court, but if the convicting court omits to do so such classification may be made by the district magistrate, or in the absence of an order by the convicting court or District Magistrate and pending the result of a reference to the District Magistrate, by the officer in charge of the prison where such convicted prisoner is confined:

Provided that any prisoner classed as an habitual criminal may apply for a revision of the order.

285. The convicting court or the District Magistrate may, for reasons to be recorded in writing, direct that any convicted prisoner or any prisoner committed to or detained in prison under section 123 (read with section 109 or section 110) of the Code of Criminal Procedure, 1898, shall not be classed as an habitual criminal and may revise such direction.

286. Convicting courts or District Magistrate, as the case may be, may revise their own classifications, and the District Magistrate may alter any classification of a prisoner made by a convicting court or any other authority:

Provided that the alteration is made on the basis of facts which were not before such court or authority.

Note.—The expression "District Magistrate" wherever it occurs in the preceding paragraphs means the District Magistrate of the District in which the criminal was convicted, committed or detained.

287. (1) Whenever a person is sentenced to imprisonment for an offence, the magistrate who passes the sentence shall determine whether the convict is to be classed as an "habitual" or otherwise, and shall endorse the word "habitual" or "casual", as the case may be, legibly on the warrant of commitment, and sign such endorsement.

(2) If the convict has been previously convicted, a statement containing the particulars of the previous convictions should be attached to the warrant of commitment.

(3) The Superintendent shall satisfy himself that the convicting courts endorse the classification on warrants and in cases where this is not done, he shall return the warrants for necessary endorsement.

288. When a convict not classified as habitual is recognised as a previously convicted prisoner, the Superintendent shall inform the District Magistrate and return the warrant for correction.

II.—SEPARATION.

289. European or Anglo-Indian prisoners shall be kept in the special wards provided for them. Classes A and B prisoners and the superior class under-trials shall be kept in separate wards than other prisoners.

290. Female prisoners of all classes shall be confined in the barracks or cells inside the female enclosure.

291. Prisoners suffering from contagious diseases shall be kept in separate cells. Prisoners who are in the convalescent gang or are old and infirm are also kept in the hospital barracks.

292. Convicts of the casual class, i.e., those who have not been classified as an habitual, shall at all times be kept separate from convicts of the habitual class.

293. The "casual" prisoners shall wear red caps and their clothing shall have a red stripe of four threads, and "habitual" prisoners shall wear black caps and their clothing shall have a blue stripe of the same width. The cloth for the female clothing shall have a red or black stripe half an inch wide.

294. Male juvenile prisoners shall be confined in cells and barracks, each class entirely separate from each other and from other prisoners. At night they shall be kept in separate cells.

295. Every habitual criminal shall be confined in a cubicle or cell or in a special ward in which no prisoners other than habitual criminals shall be kept:

Provided that the Inspector-General of Prisons may sanction the transfer to the special ward of any prisoner, not being an habitual criminal, whom, for reasons to be recorded in writing, the Superintendent of the prison believes to be of so vicious or depraved a character and to exercise, or likely to exercise, so evil an influence on his fellow prisoners that he ought not to be confined with other non-habitual prisoners; but a prisoner so transferred shall not otherwise be subject to the special rules affecting habitual criminals.

CHAPTER XIII.

332. No female prisoner shall leave the female enclosure or be removed therefrom except for transfer, attendance at court, release or under orders of the Superintendent for any other special purpose. Whenever a female prisoner is authorized to leave the female enclosure, she will be accompanied by, and be in the custody of the female warden.

333. Warders acting as escorts to the Superintendent and visitors shall remain outside the female enclosure.

334. When a female convict under a sentence of 2 years or more is admitted, the Superintendent shall submit her nominal roll to the Inspector-General of Prisons, with a view to her transfer to a jail in the United Provinces or the Punjab.

335. Every female prisoner shall be supplied with a comb and oil for the hair, and one or two looking glasses shall be provided in each ward.

336. The hair of a female prisoner shall not be cut except when the Medical Officer considers necessary; in such cases the hair shall not be cut shorter than is necessary for the purposes of health and cleanliness.

337. Female convicts shall ordinarily be employed on repair of clothing, cleaning grain, etc., and shall whenever possible be given instruction in needle-work, knitting and other domestic industries. They shall not be employed on grinding grain.

338. The female prisoners shall attend to the cleanliness of the female enclosure; they shall at the prescribed hour under the supervision of the female warden place all refuse outside the enclosure for removal by male convicts.

339. A female prisoner is not liable to be punished by handcuffs, fetters or whipping; provided that handcuffs may be imposed on any female prisoner as a means of restraint only.

340. (a) Every female convict who is resident of a district other than Ajmer-Merwara shall be transferred to the prison nearest to her home at least ten days prior to the date of her release.

(b) The Superintendent shall inform the District Magistrate concerned of the date of release and the names and addresses of the relatives of every female convict who is to be released one month before such date, to enable him to ask them to come and receive her at the prison gate.

(c) A nominal roll of such female convict will be submitted to the Inspector-General, one month prior to date of release with a view to the necessary intimation being sent to the Inspector-General of Prisons of the province to which the female convict will be sent.

341. When a female convict under 40 years of age is transferred to another prison, she will be accompanied by a female warder, whether travelling alone or in company with other female convicts.

342. In the case of a female convict who is resident of Ajmer-Merwara, an intimation of the date of release will be given to her relatives, through the Commissioner, one month before date of release.

343. In the event of no relative appearing on the day of release, the Superintendent shall, in the case of a female prisoner under 40 years of age, send her to her home in the charge of the female warder, and in all other cases release her at the prison gate.

344. Female prisoners released from prison shall receive subsistence allowance for the journey to their homes at double the rates allowed for male prisoners.

345. The Jailer shall note in his report book the arrangements made for the safe conduct to her home of every female convict released.

346. Female prisoners may be allowed to keep their children with them till the children attain six years of age.

348. The rules about the diet and clothing of the female convicts and their children with them are given in the chapters "*Dietary*" and "*Clothing*".

CHAPTER XVII.

CONVICTS SENTENCED TO DEATH.

349. Every prisoner under sentence of death, immediately on arrival in the prison after sentence has been passed, shall be searched by, or by order of the Jailer, and every article of clothing and all articles of every description shall be taken from him. He shall be supplied with a suit of prison clothing, a bedding of felt and earthen utensils.

350. The following rules for the custody and guarding of the convicts under sentence of death shall be strictly followed:—

- (1) Every convict under sentence of death shall be confined in a cell apart from all other prisoners and shall be under the charge of a special guard by day and night.
- (2) The Jailer or Deputy Jailer shall examine every cell in which any convict under sentence of death is to be confined and shall satisfy himself that it is secure and contains no article which it would be inexpedient to permit to remain in the cell. A lantern shall be kept burning from sunset to sunrise in front of the grated door of every cell which is occupied and shall be so placed as to throw a good light on the condemned convict.
- (3) The Jailer or Deputy Jailer, morning and evening, shall search carefully the convict and examine his cell and shall satisfy himself that the convict has in his possession no forbidden articles and that his cell is sound and secure, and shall examine the convict's food and be present when it is issued, reporting in the daily report book that he has carried out these duties.
- (4) Every prison officer on night rounds shall visit the cells for condemned convicts and satisfy himself that the sentry is on the alert, the convict is present and the lantern is burning brightly.
- (5) The guarding of condemned convicts shall be carried out by trustworthy permanent warders of different caste and different districts from those of the convicts.
- (6) The guard shall consist of four warders under one Head Warder for not more than 3 convicts. Every warden shall be on duty for two hours at a time.
- (7) The warden on duty shall be armed with a baton and provided with a whistle, and shall patrol up and down past the front of the cells so that each convict may be brought into view at short intervals. The warden shall allow no person to go near or communicate with the convict except the Superintendent, the Medical Officer, the Jailer, the Deputy Jailer, the Sub-Assistant Surgeon, the Head Warders on duty, official visitors, prison officers on night rounds, the authorized menials of the prison under proper guard and authorized persons under proper guard. He shall sound the whistle in all cases of emergency.

- (8) In addition to the sentry on duty on the condemned convicts, at least one warder shall be present in the guard room throughout the day. The whole guard shall be present in the guard room throughout the night. Warders shall be permitted the use of their own bedding and charpoys when off duty during the night.
- (9) The Head Warder on duty shall visit the cell occupied by a condemned convict on his rounds; and at uncertain hours during the day and night and shall forthwith report to the Jailer any neglect on the part of the sentry or unusual or suspicious conduct of the convict.
- (10) The key of the cell in which a condemned convict is confined shall be kept by the Head Warder on duty and the duplicate shall be stored in the key-chest at the main gate. The Head Warder shall, in case of emergency, such as an attempt to commit suicide, enter the cell and take necessary action.
- (11) The door of the cell in which a condemned convict is confined shall not ordinarily be opened unless the convict has been first handcuffed. This precaution need not be taken if three warders and a superior officer are present.
- (12) A condemned convict may be permitted to occupy the verandah in front of his cell for half an hour morning and evening, but only one such convict at a time shall be allowed to do so. During this time handcuffs should be applied and remain on the convict.
- (13) A convict sweeper or any other prison servant permitted to enter the cell of a condemned convict shall be carefully searched before he enters the cell and kept under close observation by the Head Warder on duty.

351. Condemned convicts shall not be fettered except when for lack of accommodation they are confined in cells not meant for the confinement of such convicts.

352. A convict under sentence of death shall be allowed the ordinary diet of a labouring prisoner. He may also be allowed reasonable indulgences at the discretion of the Superintendent.

¹ 353. The rules in the preceding paragraphs apply also to a female convict under sentence of death subject to the reservation that she shall be confined in a separate cell in the female ward and the duty of her search and guarding shall be performed by female warders. She shall not be handcuffed except when this is absolutely necessary for the safety of the convict.

¹ 354. Every convict under sentence of death shall be allowed such interviews and other communications with his relatives, friends and legal advisers as the Superintendent thinks reasonable. In these cases, at the convict's request, the Magistrate of the District to which he belongs, may be requested by the Superintendent of the prison to communicate to the convict's friends his wish for an interview.

¹ 355. The Jailer, Deputy Jailer or Clerk shall maintain on the history-ticket of every convict under sentence of death a continuous record of events, with dates relating to appeals, petitions of mercy, interviews, etc.

356. (1) The following are the instructions relating to the duties of Superintendents of the Prison in connection with petitions for mercy from or on behalf of convicts under sentence of death:—

- I. Immediately on receipt of a warrant for execution consequent on the confirmation by the Judicial Commissioner's Court of a sentence of death, the Jail Superintendent shall inform the convict concerned that if he desires to submit a petition for mercy it should be submitted in writing within seven days of the date of such intimation.
- II. If the convict submits a petition within the period of seven days prescribed by Instruction I it should be addressed both to the Provincial Government and to the Governor General, and the Superintendent of the Jail shall forthwith despatch it to the Secretary to the Provincial Government in the Department concerned, together with a covering letter reporting the date fixed for the execution, and shall certify that the execution has been stayed pending receipt of the orders of the Government on the petition. If no reply is received within 15 days from the date of the despatch of the petition, the Superintendent shall telegraph to the Secretary to the Provincial Government, drawing attention to the fact, but he shall in no case carry out the execution before the receipt of the Provincial Government's reply.
- III. If the convict submits a petition after the period prescribed by Instruction I, the Superintendent of the Jail shall at once forward it to the Provincial Government, and at the same time telegraph the substance of it, requesting orders whether the execution should be postponed and stating that, pending a reply, the sentence will not be carried out. If such petition is, however, received by the Superintendent later than noon on the day preceding that fixed for the execution, he shall at once forward it to the Provincial Government and at the same time telegraph the substance of it, giving the date of execution and stating that the sentence will be carried out unless orders to the contrary are received.
- IV. If the convict submits a petition for mercy addressed to His Majesty the King Emperor or the Secretary of State, the Superintendent shall at once forward it to the Provincial Government and shall at the same time telegraph the substance of the petition and the date of execution to the Provincial Government.
He shall not further postpone execution unless specially ordered by the Provincial Government.
- V. In the event of its coming to the knowledge of the Superintendent at any time before the execution of the sentence that altogether exceptional circumstances have arisen which plainly demand a reconsideration of the sentence, he is at liberty, anything in the foregoing rules notwithstanding, to report the circumstances by telegraph to the Provincial Government and ask for its orders and to defer execution till they are received.

VI. The Superintendent shall at once repeat back to the Secretary to the Provincial Government in the Department concerned all telegrams communicating orders to him regarding petitions for mercy, by way of acknowledgment of their receipt.

(2) If intimation is received from or on behalf of a convict that it is intended to apply to the Judicial Committee of the Privy Council for special leave to appeal, the Superintendent shall at once forward the intimation and telegraph its substance to the Provincial Government for orders, postponing the execution until these orders are received. He shall, at the same time, communicate to the Provincial Government the name and address of counsel acting for the convict, if this information is available. The execution of a sentence of death shall be postponed in the case of a condemned convict who has not filed an application for special leave to appeal to the Judicial Committee of the Privy Council when any other convict or convicts sentenced to death in the same case has or have filed such application or applications.

357. When a convict under sentence of death develops insanity after conviction, the Superintendent shall stay the execution of the sentence of death and inform the District Magistrate, who shall submit immediately a report, through the Sessions Judge, for the orders of Government.

358. In the event of pregnancy being declared by a female convict sentenced to death, the Superintendent shall endorse on the warrant the fact as certified by the Medical Officer and return the warrant to the Sessions Judge for reference to the High Court, or such action as the circumstance calls for.

359. When the orders of the Provincial Government and the Governor General rejecting a petition for mercy have been received, the Superintendent shall communicate them to the condemned convict.

360. When the date of execution has finally been fixed, the Superintendent shall—

- (a) arrange for the services of an executioner;
- (b) inform the District Magistrate of the date and time of the execution; and
- (c) communicate to the nearest relatives of the convict, by a registered letter, if necessary, the date and time of the execution.

361. The District Magistrate shall instruct the Superintendent of Police to detail a party from the reserve consisting of not less than one Inspector or Sub-Inspector, two Head Constables and twelve Constables armed with muskets and provided with ball ammunition for duty at the prison on the morning of the date of execution.

362. The Superintendent shall test the gallows and the execution ropes on the evening before the day of execution, fixing the drop and carrying out the test with a bag of sand weighing one and a half times the weight of the prisoner. The bag shall be placed on a teapoy on the gallows platform so that the neck of the bag round which the rope to be tested is placed will be about five feet above the level of the platform. The Jailer shall deposit the rope after it has been tested in a secure place.

363. The scale of drop shall be regulated according to the convict's weight and shall be as follows:—

For a convict under 100 lbs., 7 ft.

For a co-convict under 140 lbs., 5 ft. 6 inches.

For a convict under 160 lbs., 5 ft.

The drop is measured from a point on the rope opposite the angle of the lower jaw of the convict to the point where the rope is held by the metal ring of the noose tightened on the neck.

364. The following rules for the conduct of the executions have been prescribed:—

- (a) The execution shall be carried out in an enclosure reserved for the purpose. Only a limited number of adult male persons may attend the execution and the Superintendent may exclude any such persons where special circumstances appear to him to justify such a course. They will not be allowed to cross the partition wall built in the enclosure and will be searched before they are admitted.
- (b) The District Magistrate shall attend the execution himself, or depute a Magistrate with not less than second class powers to be present at the place of execution before sunrise on the day fixed.
- (c) The police guard shall be present at the main gate of the prison at daybreak on the morning of the execution. The arrangements for the disposal of the police guard shall be carried out under the orders of the District Magistrate or other Magistrate present. The guard shall remain in attendance until the body is taken down.
- (d) The prison guard shall be paraded at the main gate fully armed and provided with ammunition.
- (e) When an execution is being carried out, all other prisoners shall be kept locked up in their barracks and cells till the execution is over.
- (f) The Deputy Jailer and two warders shall be posted at the outer door of the gallows enclosure. They shall admit within the enclosure only such persons who have received permission to attend the execution.
- (g) At the time fixed the Magistrate, the Superintendent and the Jailer shall proceed to the condemned convict's cell, and the Superintendent and the Jailer shall identify the convict as the individual named in the warrant of execution. The Superintendent shall then read out the warrant and orders of the appellate court and Government rejecting the appeal and petition for mercy of the convict. The Jailer shall also read out the warrant in vernacular and explain to the convict the purport of the orders.
- (h) As soon as the Magistrate, the Superintendent and the sub-Assistant Surgeon have taken their place in the gallows enclosure, the condemned convict shall be handcuffed behind the back and escorted by the prison guard under

the charge of the Jailer, through the wicket gate of the gallows enclosure, to the gallows.

- (i) The executioner shall strap the legs of the convict and under the orders of the Superintendent carry out the sentence. The body shall remain suspended for half an hour before being taken down and until the Medical Officer has certified that life is extinct. The Superintendent shall return the warrant of execution to the judge with an endorsement to the effect that the sentence has been carried out.

365. Unless the removal of the body of an executed criminal is likely to be made the occasion of a public demonstration, such body—

- (a) may, at the request of the friends or relatives of the deceased, be made over to such friends or relatives, or
- (b) if not made over to the friends or relatives under clause (a), may be disposed of under the rules prescribed in the Chapter "Death and disposal of the dead".

366. In the event of the District Magistrate or Magistrate in charge considering it undesirable that the body of an executed criminal should be made over to the relatives or friends of the deceased, such body shall, under the written order of the Magistrate, be burnt or buried within the prison precincts, with the racial or religious customs of the community to which the deceased belonged. Relatives or friends of the deceased not exceeding four may, at the discretion of the Magistrate, and under such conditions as he may impose, be admitted to the funeral ceremony and be allowed to perform any customary rites.

367. (a) A manilla rope one inch in diameter shall be used for executions. At least three such ropes in serviceable condition shall be maintained at the prison.

(b) The Superintendent shall condemn a rope which shows signs of wear or when he has any reason to suspect its reliability. No rope more than five years old shall be used at an execution. A label shall be sewn on to the end of every execution rope showing the date of its purchase.

(c) The Jailer shall see that the execution ropes are once in a quarter and after each execution dressed with beeswax and ghee in equal proportions, a little carbolic acid being added to the composition to keep off insects. To preserve them from the attacks of rats the ropes when not in use shall be placed in a *ghara*, which shall be closed and suspended from the roof of the store room, or kept in any other place of security.

368. Should any exceptional or unavoidable delay occur in carrying out a capital sentence, the Superintendent will fix a fresh date for the execution, which shall not be more than seven days from the date previously fixed for execution.

CHAPTER XVIII.

UNDER-TRIAL PRISONERS.

369. When admitting an under-trial prisoner into the prison, the Jailer shall cause him to be searched and take all weapons and prohibited articles from him.

370. The Jailer shall see that the warrant authorizing the prisoner's detention in the prison lock-up bears the date of committal and the date on which the prisoner is to be produced before the court. When a warrant is incomplete or the remand granted therein is for an indefinite period, the Superintendent shall, as soon as possible, return the warrant for correction to the court which issued it.

371. The Magistrate is expected to inform the Superintendent formally when an under-trial prisoner, for whose safe custody special precautions are necessary, is committed to prison.

372. The Superintendent shall satisfy himself by examination of the warrant that no under-trial prisoner is detained longer than fifteen days without a fresh remand, as this is contrary to law.

373. The Sub-Assistant Surgeon shall examine carefully every under-trial prisoner and record the result in the Jailer's report book as laid down in the chapter "Admission of Prisoners".

374. Every under-trial prisoner, on admission to the prison, shall—

- (a) be required to wash himself and his clothing thoroughly;
- (b) be supplied with a cup, plate and bedding, if necessary; if the prisoner is destitute, or has insufficient clothes, the Superintendent shall issue from the prison store such clothes as may be necessary; and
- (c) be provided with an "under-trials' ticket" in the prescribed form.

380. The Superintendent may impose fetters on under-trial prisoners for safe custody if the character of the offence or of the prisoner gives reasonable grounds for considering this to be necessary; and shall cause the fact to be recorded on the prisoner's ticket and the fetter register and shall initial the entries.

381. An under-trial prisoner—

(a) shall receive the non-labouring diet as prescribed in the chapter "Dietary";

384. When an under-trial prisoner dies in prison, the Superintendent shall report at once the occurrence to the court which issued the warrant.

385. When the attendance of under-trial prisoners is required at court, the Prosecuting Inspector shall send to the prison a list of these prisoners. The Jailer shall deliver the prisoners requisitioned in the list to the officer in charge of the escort. The Police are responsible for the safe custody of any prisoner committed to their charge till he has been returned to the prison or discharged from custody in the course of law. It is for the police to decide whether such prisoners shall or shall not be handcuffed or fettered.

386. An under-trial prisoner shall be given his full morning meal before he is sent to court in the morning and arrangements shall be made to enable him to have his food in the prison when he returns.

387. Under-trial prisoners should not be kept at the courts so late as to necessitate their admission to prison after lock-up time. Superintendent shall draw the attention of the District Magistrate to any cases of non-observance of this rule.

388. When an under-trial prisoner is sent to another district for trial in another case, or for any other purpose, the Superintendent shall send with the prisoner an order requiring his return together with his ticket and a copy of his warrant of remand. The Jailer shall take a receipt for these documents from the officer in charge of the police escort.

389. (a) When an under-trial prisoner is admitted, who may have to be shown subsequently to witnesses for identification, the Superintendent of Police shall, intimate, in writing, to the Superintendent of

the Prison or some police officer not below the rank of Inspector shall inform the Jailer in writing at the time of admission or as soon afterwards as may be that identification will be required.

(b) When such intimation has been received the Superintendent of the Prison shall issue instructions to prevent the prisoners being disguised or their appearance changed in such a way as to make recognition difficult; such prisoners should be obliged to keep their hair in the same state till they are convicted or discharged, that is to say, if clean shaven they must not grow a beard, and vice versa. When witnesses are present for the purpose of identification the prisoners should wear the same clothes as they were wearing at the time of admission, unless the Magistrate who conducts the proceedings directs otherwise.

Before the proceedings begin the Prosecuting Inspector, who shall be permitted to be present at all identification proceedings, may satisfy himself that all rules in this paragraph have been fully observed.

(c) The Magistrate who attends the identification will be in charge of the proceedings and the prison officials shall obey his orders. The prisoners to be identified shall be placed among a number of prisoners or other persons and shall not be allowed to conceal their faces or stature so as to impede recognition.

(d) There should be no attempt at disguise. Prisoners should not be allowed to exchange clothing, and, if a prisoner cannot wear his own clothes, he should wear clothes of a similar kind, that is to say, if he is a field labourer he should not be dressed in white clothes of a city man or vice versa. If, however, a prisoner is wearing some conspicuous garment, such as a pink turban or a *rasai* of a curious pattern and the witnesses may have been instructed to look out for a man with this distinctive mark, the Magistrate will determine whether he is to wear this special garment, remembering that in some cases recognition may depend on the particular clothes which a prisoner is wearing. In doubtful cases it will be better make the prisoner wear the clothes in which he was admitted to the prison, and in case of recognition to leave the defence to impeach the credit of the witness by suggesting tuition if they think fit.

CHAPTER XXI.

ADMISSION OF PRISONERS.

429. The general rules under which prisoners are to be admitted, discharged and removed from one prison to another are given in sections 24 to 26 of the Prisons Act, 1894.

430. The Superintendent or Jailer shall receive and detain all prisoners duly committed to his custody by any court or magistrate according to the exigency of any writ, warrant or order by which such prisoner has been committed. In case no regular warrant or order accompanies the prisoner, the Superintendent or Jailer shall immediately apply to the person who forwarded the prisoner for the necessary order and other documents and shall detain the prisoner in the *hawalat* until the regular warrant or order, signed by an authorized court or magistrate, has been received.

431. Before admitting a prisoner, the Jailer shall question him and ascertain that his name and other particulars correspond with those entered in the writ, warrant or order, and shall give a receipt in the prescribed form to the police officer in charge of the escort.

432. All convicted prisoners shall be admitted irrespective of the time at which they arrive at a prison. Under-trial prisoners shall not be admitted after the prison has been locked up for the night without the special written orders of a magistrate.

433. Prisoners received in the prison after it has been locked up shall be confined in separate cells for the night or kept at the main gate under proper custody. Barracks shall not be opened at night for this purpose.

434. Whenever an epidemic is prevalent, quarantine for the requisite period is a necessary protection against the introduction of the epidemic into the prison. In normal times newly admitted prisoners will be kept separate until the Medical Officer directs that they may be placed with other prisoners.

435. Every prisoner on arrival at the main gate shall be examined by the Sub-Assistant Surgeon in the presence of the Jailer or Deputy Jailer on duty. The name of the prisoner, the time of examination, and the result of the examination, with special reference to any injuries, wounds, contusions or abrasions detected shall be entered in Jailer's report book and the entries shall be signed by the Jailer or Deputy Jailer, as the case may be, and the Sub-Assistant Surgeon. 436. The Superintendent shall report at once to the District Magistrate full particulars of any recent injuries, wounds, contusions or abrasions found on the person of any prisoner, which appear to be due to violence and which are not explained by the nature of the case in which the prisoner is accused or has been convicted.

437. Every convicted criminal prisoner shall on admission be required to wash himself and his clothing thoroughly. -

438. Every prisoner sentenced to rigorous imprisonment shall be provided with prison clothing according to the scale laid down in the chapter "Clothing", and a cup and a plate.

439. Every Convict shall be brought for examination fully equipped with clothing before the Medical Officer, at his visit who shall enter in the admission register the state of health of the prisoner, whether good, indifferent or bad, with any other observations, and, if the prisoner is sentenced to rigorous imprisonment, the class of labour for which the prisoner is fit, whether hard, medium or light. When the medical officer and the Superintendent are separate officers, the prisoner shall also be produced before the Superintendent.

The Superintendent shall enter in the register the particular labour on which the prisoner will be employed. He shall ask the prisoner and record whether the prisoner elects to appeal or not. The Clerk shall read out the details of the prisoner's private property in the Admission register and the Superintendent shall countersign the entries after satisfying himself of the accurate description of jewellery or other valuables and the amount of cash. The Superintendent shall satisfy himself that the prisoner's description, identification marks and thumb-impression have been recorded in the Admission register. He shall check the warrant and satisfy himself that the release date and the check date, as the case may be, have been calculated correctly and posted in all the registers concerned. He shall initial the entries on the history ticket relating to health and labour and inspect the prisoner's identification ticket and clothing.

440. The Superintendent shall further examine the warrant of every convicted prisoner and satisfy himself that—

- (1) there is a separate warrant for every prisoner;
- (2) the warrant bears the date on which the sentence is passed and the seal of the court and signature of the presiding officer of the court;
- (3) the parentage, caste, residence and occupation of the convict are set forth in the warrant;
- (4) the period of imprisonment to which a prisoner has been sentenced is stated in words as well as in figures;
- (5) the nature of imprisonment, i.e., simple or rigorous, is clearly set forth;
- (6) the orders of the court are clearly stated in the warrant—
 - (a) in the case of a prisoner already undergoing a sentence, as to whether the sentence or sentences passed subsequently shall take effect at once or after the expiry of the current sentence, and
 - (b) in the case of two or more sentences awarded on the same day, as to whether the sentences shall run concurrently or consecutively;

- (8) in the case of those previously convicted, a statement of the dates, nature of offence and terms of sentences is recorded.

441. The Superintendent shall return the warrant for correction to the officer who issued it, if by an error or omission, due to mere oversight, the warrant is defective in form or otherwise irregular.

442. (a) In case the Superintendent doubts the legality of any warrant sent to him for execution, he shall follow the procedure laid down in section 17 of the Prisoners Act, 1900. The reference therein prescribed shall be made to the Provincial Government through the Commissioner.

(b) Pending a reference made under this rule, the prisoner shall be detained in such manner and with such restrictions or mitigations as may be specified in the warrant or order.

443. When a sentence of whipping has been awarded in addition to imprisonment, the Superintendent shall cause an entry in blue pencil to be made in the release register on the page devoted to the date on which the whipping should be administered.

444. The Superintendent shall be guided by the following rules in calculating the dates of release of prisoners:—

(a) the day on which the sentence was passed and the day of release shall count as days of imprisonment;

(b) the term "month" or "year" means a calendar month or a calendar year;

(c) when a sentence includes a fraction of a month, the month shall be reckoned to consist of 30 days;

(e) when a prisoner has been committed to prison under two separate warrants, the sentence in the one to take effect from the expiry of the sentence in the other, the date of such second sentence shall, in the event of the first sentence being set aside on appeal, be presumed to take effect from the date on which he was committed to prison under the first or original sentence.

(f) if a sentence of death is commuted to one of transportation or imprisonment; the sentence of transportation or imprisonment shall be held to commence from the date on which the sentence of death was passed.

445. If any person in respect of whom an order requiring security is made under section 106 or 118 of the Code of Criminal Procedure, 1898; is, at the time such order is made, sentenced to or undergoing a sentence of imprisonment the period for which such security is required shall commence on the expiration of such sentence. In other cases such period shall commence on the date of such order unless the magistrate for sufficient reason fixes a later date.

446. When a prisoner who has been sentenced to imprisonment by an order under section 123 of the Code of Criminal Procedure, 1898, in default of furnishing security is, whilst undergoing such sentence, sentenced to imprisonment for an offence committed prior to the making

of such order, the latter sentence shall commence immediately or in other words the two sentences will run concurrently.

447. When a prisoner has been ordered by a magistrate to give security for a period exceeding one year and the prisoner not having given such security is detained in prison pending the orders of the Sessions Judge, the prisoner shall undergo simple or rigorous imprisonment as the magistrate may direct, until the receipt of a fresh warrant of the Sessions Judge. The Superintendent shall keep a separate note of such prisoners and remind the court if the Sessions Judge's order is not received within a reasonable period, and on its receipt return the warrant issued by the magistrate.

448. When a convict is found to be a military pensioner, this fact not having been known to the convicting magistrate, the Superintendent shall inform the District Magistrate.

449. When a prisoner undergoing sentence under a conviction in British India is surrendered to an Indian State his sentence shall be deemed to be suspended until the date of his re-surrender, when it shall revive and have effect for the portion thereof which was unexpired at the time of his surrender.

450. The warrants of all convicted prisoners shall be suitably arranged in the special warrant cupboard, the key of which shall be in the charge of the Jailer.

451. Every convicted prisoner shall be provided with a history-ticket in the prescribed form. The Superintendent shall cause the full information required by the printed entries at the head of the ticket to be recorded. - (x) to see that after being soaked by rain, the convict's gaiters are softened with oil, which will be sent with each party;
- (xi) in case of any convict's leg becoming chafed, to remove the ring from that side and have it riveted to the wrist of the opposite arm.

The police officer in command of the escort will aid the prison officer with his authority in carrying out the above duties, and when the gang consists of less than 25 convicts, will himself be responsible for carrying them out.

555. Before the convicts have been despatched in the custody of the escort, the Superintendent shall send a letter or, if necessary, a telegram to the Superintendent of the Prison to which they are transferred, informing him of their despatch and the hour of arrival at destination. At the same time he will request the Superintendent of the receiving

prison to send an acknowledgement of the warrants and other documents sent with the police escort and to intimate the arrival of the convicts at their destination. In case of undue delay in the receipt of acknowledgement for the documents or of intimation of the arrival of convicts the Superintendent shall immediately institute inquiries.

556. When a convict dies in the course of transfer from one district to another, the Magistrate of the District to which the convict was being transferred is required to make inquiries into the circumstances attending the convict's death and to return his warrant to the Superintendent of the prison with a certificate of the convict's death under his official seal and signature.

557. The following rules regulate the movement of prisoners by rail :—

- (I) Prisoners on transfer to another prison shall be conveyed in a third class compartment except when despatched by mail train unless the District Magistrate has directed that accommodation in a higher class be provided. A prisoner shall however be permitted to travel with his escort in a higher class if he pays the total additional cost.
- (II) Reserved accommodation shall be provided when the number of prisoners and their escorts exceed five, or when insane, violent or dangerous prisoners or prisoners in military uniform are transferred or when the District Magistrate requests this to be done.
- (III) When reserved accommodation is required, the superintendent of Police shall send to the station-master a requisition for transport in the prescribed form. Twenty-four hours' notice must be given to the Station-Master to secure the accommodation.
- (IV) Prison fittings shall be attached in the reserved compartments when dangerous prisoners, including dacoits, are travelling or the number of prisoners is 25 or more. When prison fittings are required, the fact should be noted on the requisition form.
- (V) When reserved accommodation tickets are issued and when the party is booked through, the Superintendent of Police should advise the Station-Master to inform by wire all foreign line junctions of the traffic, and at the same time, if transhipment is necessary, to arrange at all junctions for reserved accommodation and prison fittings similar to those provided at the station from which the prisoners are despatched.
- (VI) Prisoners shall not be sent by mail trains, except for special reasons. Dangerous or notable prisoners shall not be sent by mail train, unless there are exceptional and special reasons. Prisoners travelling by mail train must travel in reserved compartments with prison fittings; the higher fares chargeable for journeys by mail trains shall be paid.
- (VII) Payment for reserved third class accommodation for prisoners and their escorts shall be made at the same rates as

are chargeable to the public. The number of prisoners and escorts in a reserved compartment shall not exceed the carrying capacity. A minimum charge of Rs. 5 per compartment reserved shall be made.

558. A prisoner under sentence of transportation shall be transferred to the Andaman Islands only if he is selected in accordance with the special instructions issued by the Central Government from time to time. The nominal roll of the convict shall be forwarded to the Chief Commissioner of the Andaman Islands for approval, and when approved the prisoner shall be transferred to the Presidency Jail, Calcutta, and the Superintendent of that jail shall arrange for the onward journey. The convict shall be provided with ordinary prison clothing on the winter scale and one *dhoti*.

The following documents should be handed over to the police escort:—

Warrant of the convicting court, when not replaced by a warrant of the appellate court,

Warrant of the Appellate Court (if any) and any orders of the Provincial Government in respect of the sentence,

Descriptive Roll,

Judgment,

Nominal Roll,

History-ticket with Medical History Sheet, etc.

Note.—The amount of remission should be stamped on the warrant by means of a rubber stamp with the inscription "Transferred to the Andamans on Total remissions earned days" and the entry be signed by a responsible officer.

559. No convict may be deported who suffers from any of the following diseases:—

- (i) blindness of both eyes to such an extent as to interfere with the performance of ordinary labour,
- (ii) insanity,
- (iii) idiocy,
- (iv) leprosy,
- (v) phthisis pulmonalis,
- (vi) epilepsy.

560. (a) On receipt of an order from a court for the production of any prisoner, the Superintendent shall at once apply to the Superintendent of Police for a police guard and shall request the attendance of the escort at the prison gate to receive charge of the prisoner at an hour named. The Superintendent of the Prison shall distinctly state the importance of the prisoner and whether he is specially dangerous.

(b) At the time fixed the prisoner shall be made over by the Superintendent of the Prison to the officer in command of the escort party, together with the order of the court requiring the production of the prisoner and any other necessary documents and a receipt for the prisoners and the documents, shall be signed by the officer in command and retained in the prison office.

561. When a convict is sent to another district for trial or to another case or to give evidence, or for any other purpose, the Superintendent shall send with the convict an order requiring his return to the Ajmer Central Prison when he is no longer required by the court. He shall also send with the convict his history-ticket and a copy of his warrant of commitment. The Jailer shall take a receipt for these documents from the officer in charge of the police escort.

562. The Police department shall defray all charges of every kind arising from the conveyance of all prisoners to and from the courts, including the cost of dieting the prisoners when they are in custody of the police.

563. The rules in this chapter do not apply to State prisoners confined by the order of Government.

564. The following rules are laid down for the transfer to the United Kingdom or to a British possession of soldiers not enlisted in India who have been convicted by civil courts and discharged from the army:—

- (1) On receipt in prison of a military prisoner not enlisted in India who has been convicted by a civil court it should be ascertained without delay whether his discharge from the army has been ordered.
- (2) All such prisoners who are to be so discharged should, whenever possible, be removed from India under the provisions of the Colonial Prisoners' Removal Act, 1884, during the trooping season in which their sentences expire, or if their sentences expire between the end of one trooping season and the beginning of the next, during the season previous to the expiry of their sentences. In the latter case they should be sent, if possible, by the last troopship sailing at the end of the trooping season.
- (3) Cases may, however, occur in which it is impossible to arrange for deportation under the Act, either because the whole term of the sentence falls between the close of one trooping season and the opening of the next, or because the sentence itself or the period between the date of sentence and the closing of the trooping season is too short to admit of the necessary formalities being carried out. In such cases prisoners cannot be compelled to leave British India on release, but if they do not object to do so, they should be transferred to the Arthur Road Prison, Bombay, shortly before their sentences expire, and on completion of sentence they should be provided with a passage by a private vessel and unostentatiously seen on board. If they refuse to quit India, they must ordinarily be released from the jails of the province in which they have been convicted.
- (4) Prisoners dealt with under rule (2) and such of those referred to in rule (3) who do not object to quit India should be transferred, under the authority conferred on Provincial Governments by the general orders under section 29 (1) of the Prisoners' Act, 1900 (III of 1900), from the prison in which they are confined to the Arthur Road Prison,

Bombay. In the case of prisoners dealt with under rule (2), the transfer should be effected not less than three months before the end of the trooping season or before the expiry of the sentence, as the case may be. When the sentence is less than three months, the transfer should be made as soon as possible.

(5) In the case of prisoners referred to in rule (2), Provincial Governments in directing the transfer, under the general orders referred to in rule (4), should make an order remitting the residue of the sentence with effect from the date of disembarkation in the United Kingdom or in the British possession to which the prisoner is removed. This order should be communicated to the Government of Bombay at the time of advising the prisoner's transfer. The earliest possible intimation should also be given to the Government of Bombay of the date on which the prisoner may be expected to arrive in Bombay and of the date and term of his original sentence.

(6) In the case of prisoners dealt with under rule (2), the following procedure should be observed:—

Four months before the end of the trooping season or before the expiry of the prisoner's sentence, as the case may be, or in the case of shorter sentences, as soon as it has been ascertained that the prisoner is to be discharged, a request should without delay be made to the Central Government who will proceed to obtain the Secretary of State's orders for the prisoner's removal under sections 2 (b) and 5 of the Colonial Prisoners' Removal Act, 1884 (47 and 48, Victoria, Ch. 31). A copy of the despatch from the Central Government will be forwarded simultaneously to the Government of Bombay.

The Secretary of State will communicate the order of removal direct to the Government of Bombay, who will thereupon draw up in duplicate or in triplicate, as the case may be, a notification of concurrence in the order of removal in the form annexed for the signature of His Excellency the Governor as required by His Majesty's Order in Council, dated September 9, 1907, and will also issue the necessary warrant under section 7 of the Colonial Prisoners' Removal Act, 1884, directing the prisoner's removal to the United Kingdom or to a British possession. The Government of Bombay will send one copy of the notification of concurrence to the Secretary of State. In the case of the removal of a prisoner to a British possession, a copy will also be sent to the Governor of the colony to which the prisoner is to be removed.

Note.—The above procedure will not apply to a prisoner from one British possession to another in pursuance of an agreement made between such possessions and sanctioned by order in Council under the provisions of the Colonial Prisoners' Removal Act, 1860.

(7) When it is desired to remove prisoners under warrant by troopship, the Government of Bombay will ascertain direct

from General Officer Commanding, Bombay District, whether a passage can be provided and the name of the Officer Commanding the troops on board. In this case a warrant under section 7 of the Colonial Prisoners' Removal Act, 1884, shall confer the requisite authority upon the Officer Commanding the troops on board.

- (8) Considerable time will be expended in carrying out the procedure described above, and it is essential that no delay shall occur in addressing the Central Government so as to enable them to obtain the Secretary of State's order of removal as soon as possible. Accordingly when the term of imprisonment is less than three months, the Central Government should be communicated with by telegraph.
- (9) Superintendent shall submit to the Inspector-General nominal rolls with full personal descriptions of all repatriates, whether ex-military convicts or deportees under the European Vagrancy Act, for transmission to Government in the Judicial Department. He shall also impound the passports of repatriates who are in possession of passports and forward them, with a report on the circumstances of their intended repatriation or expulsion, as the case may be, to the Inspector-General for transmission to Government in the Political Department.

CHAPTER XXV.

GOOD CONDUCT REMISSION RULES.

565. In good conduct remission-rules—

- (a) "prisoner" includes a person committed to prison in default of furnishing security to keep the peace or be of good behaviour;
- (b) "class 1 prisoner" means a thug, a robber by administration of poisonous drugs or a professional, hereditary or specially dangerous criminal convicted of heinous organized crime, such as dacoity;
- (c) "class 2 prisoner" means a dacoit or other person convicted of heinous organized crime, not being a professional, hereditary or specially dangerous criminal;
- (d) "class 3 prisoner" means a prisoner other than a class 1 or class 2 prisoner;
- (e) "sentence" means a sentence as finally fixed on appeal, revision or otherwise, and includes an aggregate of more sentences than one and an order of committal to prison in default of furnishing security to keep the peace or be of good behaviour;
- (f) "life-convict" means—
 - (i) a class 1 or class 2 prisoner whose sentence amounts to 25 years' imprisonment, or
 - (ii) a class 3 prisoner whose sentence amounts to 20 years' imprisonment.

Note.—The case of all life-convicts and all prisoners sentenced to more than fourteen years' imprisonment or transportation or to transportation and imprisonment for terms exceeding in the aggregate fourteen years shall, when the term of imprisonment undergone together with any remission earned under the rules amounts to fourteen years, be submitted for the orders of the Provincial Government in accordance with the instructions contained in the Home Department resolution No. 159-67 (Jails), dated September 6, 1905.

566. (1) No remission shall be earned in respect of any sentence of transportation or imprisonment under section 2 of the Frontier Murderous Outrages Regulation, 1901 (IV of 1901), passed on a person above the age of 15 years.

(2) No ordinary remission shall be earned in the following cases, namely:—

- (a) in respect of any sentence of imprisonment amounting, exclusive of any sentence passed in default of payment of fine, to less than six months;
- (b) in respect of any sentence of simple imprisonment, except for any continuous period not being less than one month during which the prisoner labours voluntarily;
- (c) if a prisoner is convicted of an offence committed after admission to jail under section 147, 148, 152, 224, 302, 304, 304A, 306, 307, 308, 323, 324, 325, 326, 332, 333, 352,

353 or 377 of the Indian Penal Code, or of an assault committed after admission to jail on a warder or other officer, the remission of whatever kind earned by him under these rules up to the date of the said conviction may, with the sanction of the Inspector-General of Prisons, be cancelled.

Note.—The intention of clause (2) (a) is that if a prisoner's sentence or total of sentences is reduced on appeal to less than six months, he shall cease to be eligible for ordinary remission under these rules, and any remission that he may have earned prior to the reduction of his sentence or sentences shall be forfeited. See in this connexion the definition of "sentence" in paragraph 565 (e).

567. The Superintendent may, with the previous sanction of the Inspector-General readmit to the remission system any prisoner who has been removed therefrom under rules framed under section 59, clause (3) of the Prisons Act, 1894. Such a prisoner shall earn remission under these rules from the commencement of the month following such re-admission.

568. (1) Ordinary remissions shall be awarded on the following scale:—

- (a) two days per month for thoroughly good conduct and scrupulous attention to all prison regulations;
- (b) two days per month for industry and the due performance of the daily task imposed.

(2) A prisoner who is unable to labour through causes beyond his control, by reason of being at court, in transit from one prison to another, in hospital or in an invalid gang, shall be granted remission under clause (a) of this rule on the scale earned by him during the previous month if his conduct prior to and during the period in question has been such as to deserve such grant. He should also be entitled to the grant of remission under clause (b) of this rule on the scale earned by him during the previous month, if he has been in prison during that term; if not, at the rate of two days per month:

Provided that if his absence from work is due to his own misconduct in jail, no remission under clause (b) of this rule shall be awarded for the period of absence:

Provided also that if he is in hospital or in an invalid gang, no remission under clause (b) of this rule shall be granted unless the Medical Officer certifies that the prisoner's absence from labour is due to causes beyond his control and is in no way caused by any action of the prisoner himself taken with a view to escape work or to get into or to remain in hospital.

569. In lieu of the remission allowed under paragraph 568, convict warders shall receive eight days' ordinary remission per month, convict overseers six days per month and convict night watchmen five days per month.

570. Subject to the provisions of paragraph 567, remission under paragraph 568 shall be calculated from the first day of the calendar month next following the date of the prisoner's sentence; any prisoner who, after having been released on bail, or because his sentence has been temporarily suspended, is afterwards re-admitted to jail shall be brought under the remission system on the first day of the calendar month next following his re-admission, but shall be credited on his

return to jail with any remission which he may have earned previous to his release on bail or the suspension of his sentence. Remission under paragraph 569 shall be calculated from the first day of the next calendar month following the appointment of the prisoner as Convict Warder, Convict Overseer or Convict Night Watchman.

571. Prisoners employed on prison services, such as cooks and sweepers, who work on Sundays and holidays, may be awarded two days' ordinary remission per quarter in addition to any other remission earned under these rules.

572. Any prisoner eligible for remission under these rules who, for a period of one year reckoned from the first day of the month following the date of his sentence or the date on which he was last punished for a prison offence, has committed no prison offences whatever, shall be awarded fifteen days' ordinary remission in addition to any other remission earned under these rules.

Explanation.—For the purposes of this rule prison offences punished only with a warning shall not be taken into account.

573. Ordinary remission shall be awarded by the Superintendent or, subject to his control and supervision and to the provisions of paragraph 574, by the Jailer, Deputy Jailer or any other officer specially empowered in that behalf by him.

574. An officer awarding ordinary remission shall, before making the award, consult the prisoner's history-ticket in which every offence proved against the prisoner must be carefully recorded, or if remission sheets (or cards) are not maintained in a general remission register.

If a prisoner has not been punished during the quarter otherwise than by a formal warning, he shall be awarded the full ordinary remission for that quarter under paragraph 568 or, if he is a convict officer under paragraph 569.

If a prisoner has been punished during the quarter otherwise than by a formal warning, the case shall be placed before the Superintendent, who, after considering the punishment or punishments awarded, shall decide what amount of remission shall be granted under paragraph 568, or if the convict is a convict officer, under paragraph 569. All remissions recorded on the prisoner's history-ticket shall be entered quarterly on the remission sheet (or card).

575. The award of ordinary remission shall be made as nearly as possible on January 1, April 1, July 1 and October 1, and the amount shall be intimated to the prisoner and recorded in his history-ticket. Remission granted to a prisoner under paragraph 572 shall be recorded on his history-ticket as soon as possible after it is awarded.

576. No prisoner shall receive ordinary remission for the calendar month in which he is released.

577. Special remission may be given to any prisoner, whether entitled to ordinary remission or not, other than a prisoner undergoing a sentence referred to in paragraph 566 (1) for special services, as for example:—

(1) assisting in detecting or preventing breaches of prison discipline or regulations;

∴ (2) success in teaching handicrafts;

- (3) special excellence in, or greatly increased output of, work of good quality;
- (4) protecting an officer of the prison from attack;
- (5) assisting an officer of the prison in the case of outbreak, fire or similar emergency;
- (6) economy in wearing clothes.

578. Special remission may be awarded—

- (a) by the Superintendent to an amount not exceeding 30 days in one year;
- (b) by the Inspector-General or the Provincial Government to an amount not exceeding 60 days in one year.

Explanation.—For the purpose of this rule, years shall be reckoned from the date of sentence, and any fraction of a year shall be reckoned as a complete year.

579. An award of special remission shall be entered on the history-ticket of the prisoner as soon as possible after it is made, and the reasons for every award of special remission by a Superintendent shall be briefly recorded.

580. The total remission awarded to a prisoner under all these rules shall not, without the special sanction of the Provincial Government, exceed one-fourth part of his sentence.

581. In calculating the date of release of a prisoner the number of days of remission earned shall be converted into months and days at the rate of 30 days to each month.

582. When a life-convict who is either—

- (a) a class 1 prisoner, or
- (b) a class 2 or class 3 prisoner, with more than one sentence, or
- (c) a prisoner in whose case the Provincial Government has passed an order forbidding his release without reference to it,

has earned such remission as would entitle him to release but for the provisions of this rule, the Superintendent shall report accordingly to the Provincial Government in order that his case may be considered with reference to section 401 of the Code of Criminal Procedure, 1898.

583. Save as provided by paragraph 582, when a prisoner has earned such remission as entitles him to release, the Superintendent shall release him.

Note to Paragraphs 582 and 583.—The intention of these paragraphs is (a) that the cases of class 1 life-convicts, of class 2 or class 3 life-convicts, who have more than one sentence for offences committed either before their admission to jail or while in jail, and of any other life-convicts in whose cases the Provincial Government may have deemed it desirable, should be submitted for the special orders of the Provincial Government as to whether release should be granted, and, if so, on what conditions (such conditions must, it should be noted, be prescribed by order under section 401, Code of Criminal Procedure); and (b) that all other convicts should, on the expiry of their sentences, less the periods of remission earned, be released unconditionally without any special orders from the Provincial Government.

584. When a prisoner is released under paragraph 583, the total amount of remission earned by him shall be endorsed on his warrant, and the endorsement shall be signed by the Superintendent.

585. When a prisoner is transferred to another jail, the total amount of remission earned by him up to the end of the previous month shall be endorsed on his warrant and entered on his history-ticket, these entries being signed by the Superintendent.

The receiving jail shall be responsible that the above information is duly obtained. Each jail at which a prisoner serves a portion of his sentence shall be held responsible for the correct calculation of the remission earned in that jail.

586. Remission sheets (or cards) shall be retained in the office of a jail for a period of one year after the release of the prisoner to whom they relate. When a prisoner is transferred to another jail, his remission sheet or card where such are maintained or where they are not maintained a statement certified by the Superintendent, of the total remission earned up to the date of transfer, shall be sent with the prisoner.

587. When a convict is sent to the prison under a sentence of transportation or imprisonment, whether for life or a term or terms exceeding in the aggregate fourteen years on conviction of an offence classified as heinous in the first explanation hereto annexed, the court shall furnish the following information to the Superintendent of the Prison concerned:—

- (1) whether the said convict is a professional, hereditary or specially dangerous criminal; and
- (2) unless this is of the essence of the offence, whether the crime of which he was convicted was "organized" within the meaning of the second explanation hereto annexed.

Explanation I.—The following offences are classified as "heinous":—

Offences punishable under the provisions of the Indian Penal Code or any other law with a sentence of death, transportation for life or a sentence of seven or more years' imprisonment and offences punishable under the provisions of sections 147, 148, 152, 153A, 212, 379, 411, Indian Penal Code, provided that the final substantive sentence inflicted shall be of transportation or of imprisonment for a term of not less than two years.

Explanation II.—A crime is said to be "organized" when it is committed by one or more of a body of persons associated for the purpose of committing such crime or crimes of a similar nature.

588. Rules in regard to conditional release of life-convicts:—

- (I) Except as provided in Rule III hereafter, every life-convict falling under class 3 of the classes of convicted prisoners specified in paragraph 565 who has earned a reduction of sentence under the said rules shall be unconditionally released on the expiry of his sentence as reduced under the provisions of the said rules.
- (II) Every life-convict of class 1, class 2 or class 3 of the classes of convicted prisoners specified in paragraph 565, who is provisionally entitled to be conditionally released under the provisions of the said rules before the expiration of the sentence, shall, during the period of remission of sentence earned under the remission rules, be released subject to

the conditions specified in the order of conditional release passed in his case and to the provisions of the rules as to police surveillance during such period.

- (III) In accordance with paragraphs 582 and 583 life-convicts shall be conditionally released by the order of the Provincial Government. If the convict's release is ordered, the execution of the remainder of the sentence will be suspended and the convict will be under police surveillance and, subject to the conditions hereinafter prescribed, till the expiration of the sentence or for such less time as may be directed.
- (IV) Each case shall be submitted to the Provincial Government through the Inspector-General of Prisons for consideration when the convict has served a period of fourteen years including remission of sentences earned by him in prison.
- (V) On receipt of this report, the Provincial Government shall decide whether the convict should be released immediately or required to serve a longer term. In the latter case the total period inclusive of remissions shall be specified and the convict shall be released without further reference to the Provincial Government when he has served this period, if the release is to be unconditional.
- (VI) If the release is to be conditional, the Superintendent shall at least two months before the date of release, submit the case to the Provincial Government for the issue of necessary orders.
- (VII) If an order for conditional release is issued by the Provincial Government, the convict shall be dealt with in the same manner as the convicts against whom an order under section 365, Code of Criminal Procedure has been passed, vide paragraph 542.

NOTE.—For the conditions of release prescribed by the Provincial Government for the release of convicts before the expiry of their sentence please see Appendix III.

611. 612. In order to secure a regular sequence of visits, the Commissioner shall cause the names of non-official visitors to be placed on a roster, and shall invite them to make monthly or quarterly visits by turns as he may direct. But nothing in this rule shall be deemed to derogate from the right of a non-official visitor to visit the prison on any day between the morning unlocking and the evening locking up.

613. A visitor may call for all books, papers and records other than those of a confidential nature, which are connected with the administration of the prison. He may visit every ward, yard and cell and see every prisoner in confinement and should endeavour to ascertain whether the rules and orders are being obeyed. The visitors must use tact and discretion in questioning prisoners.

614. (a) A visitor may record in the visitors' book any remarks or suggestions with regard to the internal management of the prison, or the state of discipline maintained therein. The Superintendent shall at once forward a copy of such remarks, with any explanation which he may deem necessary to the Inspector-General of Prisons, who shall make thereon such orders as the case requires. When a visitor considers that the sanctioned system requires modifications in any particulars, he should refer the opinion separately to the Inspector-General of Prisons, and should not discuss the subject in the visitors' book.

(b) There shall be only one book for the use of official and non-official visitors.

(c) The visitors' book shall on no account be removed from the prison.

615. The Superintendent shall cause the orders of the Inspector-General of Prisons to be copied into the visitors' book for the information of the visitors.

616. The Superintendent shall permit judicial and magisterial authorities and also any person provided with a written order from the Commissioner or Judicial Commissioner, to enter the prison for the purpose of recording the statement of any prisoner.

617. (a) A person, other than an official or a non-official visitor appointed by Government, may visit the prison, if he is accompanied by or has obtained the written permission of the Commissioner or the Superintendent. Visits by such persons may be made on any day between the hours of 7 and 11 a.m. This restriction, however, is not intended to prohibit the Superintendent from admitting persons whom he may wish to show round the prison at any other time.

(b) A person other than an official or non-official visitor appointed by Government shall not be permitted to put any questions to prisoners or to make any enquiries either from officials or from prisoners concerning the discipline and management of the prison.

(c) The Superintendent may remove from the prison any visitor who does not comply with these rules.

618. The Superintendent shall arrange that every visitor to the prison shall be accompanied by a responsible prison official and by an escort which shall consist of two warders armed with batons.

619. A reprint of the rules contained in this chapter shall be kept at the prison gate for the information of all visitors.

CHAPTER XXVIII.

INTERVIEWS AND LETTERS.

620. (a) Every newly convicted prisoner shall be allowed reasonable facilities for seeing or communicating with his relatives or friends with a view to the preparation of an appeal or to the procuring of bail. He shall be allowed to have interviews with, or write letters to, his friends once or twice, or oftener, if the Superintendent considers it necessary, to enable him to arrange for the management of his property or other family affairs.

(b) Every convict committed to prison in default of payment of fine or of finding security under chapter VIII of the Code of Criminal Procedure, 1898, shall be allowed to communicate by letter and to have one or more interviews with his relations or friends for the purpose of arranging for the payment of the fine or the furnishing of security.

(c) Every convict under sentence of death shall be allowed such interviews and other communications with his relatives, friends and legal advisers as the Superintendent thinks reasonable.

In these cases, the Superintendent may request the District Magistrate of Ajmer-Merwara or any other District to which the prisoner belongs, to communicate to the prisoner's friends the wish of a prisoner for interview at the prisoner's request.

621. (a) In addition to the privileges granted in the foregoing paragraph, every convict shall be allowed to have interviews with his friends and to write and receive letters according to the scales given below:—

- (I) *Class A convicts*.—One letter and one interview in a fortnight.
- (II) *Class B convicts*.—One letter and one interview in one month.
- (III) *Convict warders and convict overseers*.—One letter and one interview in one month.
- (IV) *Convict watchmen*.—One letter and one interview in two months.
- (V) *All other convicts*.—One letter and one interview in three months.

NOTES.—(1) A letter merely arranging an interview shall not be counted as a letter for the purposes of this rule.

(2) A convict may, with the permission of the Superintendent, substitute a letter with reply for an interview, or vice versa.

(b) A convict who has committed a serious prison offence shall be liable to have his privilege of interviews and letters suspended, at the discretion of the Superintendent, for a period not exceeding three months.

622. (a) The Superintendent, at his discretion, may sanction an interview or allow a letter to be despatched or received, as a special case for any special or urgent reasons, e.g.:—

- (a) When a prisoner is seriously ill.
- (b) In the case of serious illness or death of a near relative.

- (c) If the friends or relatives have come from a long distance to see the convict.
- (d) If the convict is nearing release and wants to secure employment.

NOTE.—When a prisoner is *dangerously ill* or in cases of extreme urgency in which the prisoner cannot himself communicate with his relatives, information should be sent to them and they will be permitted to interview the prisoner.

623. Matters of importance, such as the death of a relative may be communicated to the Superintendent at any time by the friends of a prisoner and the Superintendent, if he thinks it expedient, may inform the prisoner of the substance of the communication.

624. (a) No convict shall be allowed to have an interview or to receive or write a letter except with the permission of the Superintendent, which shall be recorded in writing.

(b) Every interview must be recorded in the Jailer's report book and be signed by the Superintendent. An entry should also be made of every interview or letter with its date on the convict's history-ticket, and should bear the initials of the Superintendent.

(c) The Superintendent may refuse to allow any interview to which a prisoner would ordinarily be entitled under these rules if in his opinion it is inexpedient in the public interest to allow any particular person to interview a prisoner or if other sufficient cause exist. In every such case he shall record in his order book the reasons for such refusal.

(d) No minister of religion shall be allowed to have access to any prisoner who does not belong to his denomination unless the prisoner voluntarily and spontaneously expresses a wish to see such a minister, in which case the matter shall be reported to the Inspector-General of Prisons for orders.

625. Applications for interviews with prisoners shall be in writing. If the prisoner is not entitled to an interview, the applicant shall be informed at once and the petitions duly endorsed should be returned by the prison clerk to the petitioners. Petitions for interviews should be received on plain paper. There is usually in attendance outside the prison main gate a writer of petitions, and it is convenient to prescribe a certain form for his use; on no account should this charge for writing petitions for interviews be allowed to exceed one anna, irrespective of the number of relatives requesting the interview.

626. No Prison Officer, or relative of any Prison Officer, shall be allowed to engage in petition writing.

627. All petitions shall be deposited in a box placed at the main gate. This box should be kept locked and the key retained by the Jailer, who will open the box every morning. A notice to this effect should be put up at the main gate, specifying the particular hour daily at which the box should be opened.

628. Ordinarily the interviews are allowed on Sundays. The Superintendent may authorise interviews on other days, in special cases, between the hours of 7 a.m. and 2 p.m.

629. (a) Every interview shall take place ordinarily in the interview room at the main gate: provided that—

(1) If a prisoner is seriously ill the Superintendent may permit the interview in the hospital;

- (2) A condemned prisoner shall ordinarily be interviewed in his cell;
- (3) The Superintendent may, for special reasons to be recorded in writing, permit no interview to take place in any part of the prison.

(b) Not more than three persons will ordinarily be permitted at each interview.

630. Except as provided in paragraph 642, every interview with a prisoner shall take place in the presence of a prison officer, who shall be responsible that no irregularity occurs, and who shall be so placed as to be able to see and hear what passes and to prevent any article being passed between the parties. The conversation shall be limited to private and domestic matters and shall not extend to politics.

631. The time allowed for an interview shall not ordinarily exceed thirty minutes, but may be extended by the Superintendent at his discretion.

632. An interview may be terminated at any moment, if the prison officer present considers that sufficient cause exists. In every such case the reason for terminating the interview shall be reported at once for the orders of the senior officer present in the prison.

633. Every convict and every unconvicted criminal prisoner shall be carefully searched before and after an interview.

634. Writing materials shall be supplied to any prisoner who has permission to write a letter, and all letters shall be written at such time and place as the Superintendent may appoint. Service postage stamps and postcards will be supplied at government expense for prisoners' letters at the discretion of the Superintendent.

635. No letter shall be delivered to or sent by a convict until it has been examined by the Superintendent or by the Jailer or other prison officer under the Superintendent's orders, but no unnecessary delay should be allowed to occur in delivery or despatch. If a letter is written in a language unknown to the Jailer or the Superintendent, he shall take steps to procure a translation before forwarding the letter. No letter written in cipher shall be allowed. The Superintendent may withhold any letter which seems to him to be in any way improper or objectionable, or he may erase any improper or objectionable passages. The subject matter of the letters should be limited to private and domestic matters and shall not extend to politics.

636. If a letter is addressed to a prisoner who is not entitled under the rules to receive it, it may, unless the Superintendent determines to communicate it under paragraph 622, be withheld and kept in the Superintendent's custody until the prisoner is entitled to receive it or is released, when it shall be delivered to him, unless it is improper or objectionable; or it may be returned to the sender with an intimation that the prisoner is not entitled to receive it.

637. A convict may retain any letter which has been delivered to him with due authority unless the Superintendent otherwise directs, or may ask that it be kept for him.

638. Any prisoner who abuses any privilege relating to the holding of an interview or the writing of letters or other communication with

any person outside the prison, shall be liable to be excluded from these privileges for such time and may be subjected to such further restrictions as the Superintendent may direct.

639. (a) Should the friends of any prisoner wish to make over shoes or drinking vessels or money, etc., for his use on release, these should be entered in the petition and deposited at the main gate in the charge of the prison officer superintending the interview, and shall be brought to the notice of the Superintendent at his visit, and be recorded in the usual way in the *admission register*, prison ledger, etc., as the case requires.

(b) Should the friends of any prisoner, whether entitled to an interview or not, bring money for his use, or clothes for him to wear on release, these may be deposited on presentation of an application on plain paper and entered in the admission register, etc., to be given to him *on his discharge*. The money, *on the prisoner's application* may also be used to supply him with any eating or drinking vessels, shoes, etc., which by the prison rules he is allowed to have.

II.—SPECIAL RULES FOR THE UNCONVICTED AND CIVIL PRISONERS.

640. Unconvicted criminal prisoners shall be granted all reasonable facilities at proper times and under proper restrictions for interviewing or otherwise communicating either orally or in writing with their relatives, friends and legal advisers.

641. When any person desires an interview with an unconvicted criminal prisoner in the capacity of the prisoner's legal adviser, he shall apply in writing, giving his name and address and stating to what branch of the legal profession he belongs, and shall satisfy the Superintendent that he is the *bono fide* legal adviser of the prisoner with whom he seeks an interview and that he has legitimate business with him.

642. Every interview between an unconvicted prisoner and his legal adviser shall take place within sight but out of hearing of a Prison officer. A similar concession may be allowed by the Superintendent in the case of an interview with any near relative of the unconvicted prisoner.

643. The Jailer shall bring to the notice of the Superintendent all interviews of approvers and shall personally conduct such interviews which should be terminated at once if any attempt is made to influence the prisoner to withdraw his confession or alter his evidence.

644. Any *bono fide* confidential written communication prepared by an unconvicted criminal prisoner as instructions to his legal adviser may be delivered personally to such legal adviser without being previously examined by the Superintendent. For the purpose of this rule, the expression 'legal adviser' means a legal practitioner within the meaning of the Legal Practitioners' Act, 1879.

645. Civil prisoners may have interviews with their friends and relations on week days between the hours of 7 a.m. and 2 p.m., but the presence of a prison officer shall not be necessary. In this connexion, a reference is invited to paragraph 402.

(b) Woollen clothing should be stored in bundles and put in *dusuti* covers with naphthaline or dried *nim* leaves. Covers shall be entered in the stock book.

689. (a) The store-keeper in charge of the clothing store shall produce before the Superintendent once a month all articles of clothing which have become unserviceable.

(b) The Superintendent shall enter in words in the clothing stock book the number declared unserviceable by him and initial the entry.

(c) A table showing the number of each article condemned month by month shall be maintained in this register.

690. The Superintendent shall adopt suitable precautions to prevent articles once written off being again taken into stock. All blankets and blanket coats condemned shall be torn into four pieces.

691. All articles of cotton and woollen clothing for use in the hospital shall be of check pattern. All hospital beddings shall have a red cross woven in the centre. The Sub-Assistant Surgeon shall be in charge of the hospital clothing store and the stock of hospital clothing and bedding and shall perform the same duties as are assigned to the officer in charge of the prison clothing store.

692. The clothing of every prisoner detained or admitted into hospital shall be taken from him and washed and placed in the hospital clothing store, and he shall be provided with a complete outfit of hospital clothing.

693. The Sub-Assistant Surgeon will be held responsible for the return of all clothing of convicts who die in hospital to the store-keeper, unless the Medical Officer has directed that it shall be destroyed.

Whenever a life-convict is confined, the rule to have every article of his clothing dyed bright yellow should be strictly adhered to.

The manufacture of the clothing for each class should be regulated by the average proportion of each class in confinement during the three years.

CHAPTER XXXI.

HYGIENE AND EPIDEMICS.

694. (a) The accommodation capacity of wards, barracks, cells and other buildings intended for the occupation of prisoners shall be calculated in accordance with the following table:—

	Superficial area per prisoner. Sq. ft.	Cubic capacity per prisoner. Cubic ft.
Barracks	38	648
Cells	75	1,000
Hospital barracks	51	900

Note.—In computing the cubic space all height above 13 feet shall be disregarded.

(b) The authorized capacity of each barrack and cell of the Ajmer Central Prison is given in Appendix IV.

(c) The capacity of each barrack shall be shown on a tablet placed on the outside wall of the barrack. The number locked up each night shall be written by chalk on a black board hung near the door.

695. (a) The Superintendent and Medical Officer are responsible that overcrowding does not occur, and in the event of the population exceeding the capacity of the prison the Superintendent shall arrange accommodation in workshops and immediately forward transfer rolls of extra prisoners to the Inspector-General for sanction of transfer to other provinces.

(b) The Superintendent shall scrutinize and initial the accommodation register in which the figures showing overcrowding of barracks will be underlined.

696. Whenever a change is made in the capacity of the prison, the fact together with a brief account of the causes of the change shall be communicated to the Inspector-General in the following form:—

Memorandum showing changes in prison capacity.

	Sentences Male prisoners.	Sentences Female prisoners.	Females.	Undertrial prisoners.	Civil pris- oners.	Hos- pitals.	Cells.	Europeans.	TOTAL.
	M.	F.				M.	F.		
As it stood be- fore.									
As it now stands									

A brief account of the causes of the change should be given here.

I.—CLEANLINESS OF PERSON AND CLOTHING OF PRISONERS.

697. The Superintendent shall see that the prisoners have facilities for washing the face, hands and feet daily and that every prisoner bathes

at least twice a week and in the hot weather daily. The prisoners' hair and beards and moustaches shall be trimmed as often as required (subject to the conditions laid down in the admission chapter). The prisoners shall wash their own clothes every Saturday, a special parade being held for the purpose. Soda or sajji or soap (washing) should be issued to each prisoner to enable him to clean them thoroughly.

II.—WATER-SUPPLY.

698. The Superintendent and the Medical Officer are responsible that an ample supply of water of good quality is always available for drinking, bathing and other purposes.

699. Every precaution must be taken to prevent contamination of the water-supply whether at its source or during its distribution or carriage. The tops of all wells shall be protected to prevent waste water percolating back into the well and every well should have a grated door provided with a lock.

700. All wells shall be cleaned once a year or oftener if the Medical Officer considers it necessary. The date of cleaning shall be painted on the well curb.

701. (a) Every well in the prison should be treated once a month with permanganate of potash which should be added in sufficient quantity to give a pink colour remaining perceptible for at least six hours. For ordinary wells 5 feet in diameter containing 6 feet of water two ounces should be dissolved in a bucket of water before adding to the well. The water in the well should be agitated by the bucket after the addition of the solution.

The Sub-Assistant Surgeon shall record dates of treatment of wells with permanganate of potash in his morning state register.

(b) A more efficient means for routine sterilisation of well water-supplies is by bleaching powder, which to be effective must be fresh. For a well 5 feet in diameter containing 6 feet of water a two ounce tin or bottle of fresh bleaching powder is sufficient, but as the strength of available chlorine rapidly diminishes in this country, for thorough disinfection in most cases two tins of two ounce capacity would be required, as also when the well is larger than 5 feet in diameter.

III.—SANITATION OF THE PRISON GROUNDS AND BARRACKS, CELLS, ETC.

702. The prison precincts and enclosures must be kept perfectly neat and clean at all times. Daily and continued attention must be given to secure extreme neatness and smartness of roads, paths, grass plots and grounds. The ground outside the main wall shall be kept clear of all undergrowth and rank vegetation.

703. All sleeping barracks shall remain empty throughout the day and the bedding of the prisoners must be spread out and exposed to the sun at least twice weekly. The floors of all barracks, cells and hospital shall be swept daily. The inside of the walls of all barracks, cells and the hospital to the height of 4 feet shall be claywashed or whitewashed once a week. The whole of the walls of all barracks, cells and the hospital shall be brushed down weekly and mud-washed or white-washed as often as the Medical Officer may consider necessary.

IV.—CONSERVANCY.

704. All latrines and drains must be kept scrupulously clean.

705. Two earthenware pans coated with coaltar shall be provided in each latrine seat. A small quantity of dry earth shall be sprinkled in the pans in which solid excreta are received. The pans shall be placed in the latrine ready for use every morning and evening, and during the day they should be exposed to the direct rays of the sun. After use the contents of the pans must be emptied into the covered sanitary receptacles, two of which, one for night-soil and one for urine, should be provided for each latrine. Each latrine seat will be washed and brushed out every morning and the waste water will be collected in the bucket placed at the end of the drains of each latrine. All night-soil, urine and water from the latrines collected in the covered receptacles shall be removed every morning and evening to the trenching ground.

706. Proper sanitary arrangements shall be provided in each cell and in every barrack at night. Earthenware vessels coated with coaltar shall be used in cells and placed on a cemented non-absorbent surface. Dry earth shall not be used in cells.

707. The barracks and wards which have night latrines shall be provided with iron receptacles which should be kept clean with the application of crude oil. In barracks without night latrines a special cemented non-absorbent area will be set apart on which necessary receptacles will be provided. The sweepers shall place the receptacles in night latrines or inside the barracks daily at 3 p.m.

708. The urine and night-soil shall be trenched separately in suitable trenches, 2 feet broad and not more than 24 and not less than 18 inches deep. These trenches should be dug in straight parallel lines, 2 feet apart from one another. The earth taken out should be broken and pulverised by sieving through an ordinary mason's sieve. Night-soil to the depth of one foot should be placed in the trenches, which should then be filled in with all earth taken out. The trenchet will then present the appearance of lines of mounds, the elevations indicating the site of trenches. The earth will in a few months subside to the general ground level. After six months the land can be taken into cultivation. Urine is disposed of by trenching in a similar way. No trenching shall be done within 100 yards of a well which is used as a drinking supply or for supplying water to the kitchen.

709. Excreta from cholera, dysentery and diarrhoea cases are best disposed of by incineration, and in the prison hospital a Roorkee pattern incinerator should be kept ready for use.

An alternative method is to add sufficient disinfectant, e.g., cresol, cyllin, bycol 1 in 100 to entirely cover the excreta or discharge, and at the expiry of one hour bury the contents of the pan outside the prison.

V.—EPIDEMICS.

710. On the occurrence of a case of cholera, plague, cerebro-spinal fever, typhoid fever, typhus fever, relapsing fever or small pox in the prison, the Superintendent shall inform at once the Inspector-General and take all necessary sanitary precautions, including isolation of the patient, segregation of all contacts, disinfection of clothing and buildings and vaccination or inoculation.

711. A prisoner suffering from an infectious disease shall be isolated in a tent pitched between the outer and inner enclosure walls or in the segregation wards.

712. If two or more cases occur within a week, a daily report of the seizures and deaths shall be submitted to the Inspector-General. The Superintendent shall also inform the Chief Medical Officer, Rajputana, the Civil Surgeon, the District Magistrate and the Military authorities. All transfers from and to the prison while so infected are prohibited.

713. The barrack in which the prisoner lived shall be vacated at once and disinfected in the manner laid down in paragraph 722 (d) (i). All the prisoners who inhabited the barrack shall be segregated in a vacant barrack, if suitable and available. Their clothing and bedding shall be thoroughly washed. Tents shall be pitched between the outer and inner walls if no vacant barrack is available. If no ground inside the prison is suitable, tents shall be pitched outside the prison with the previous sanction of the Inspector-General.

714. Prisoners suffering from epidemic disease shall not be taken to the prison hospital which shall be reserved for ordinary patients. But if such a prisoner has been taken there before diagnosis was made, the hospital shall be vacated and thoroughly disinfected in the manner laid down in paragraph 722 (d) (i).

715. All cases of the disease occurring among the segregated prisoners shall be removed to the infectious diseases camp and their clothing and bedding disinfected or burnt as may be directed by the Superintendent.

VI.—INSTRUCTIONS FOR THE PREVENTION OF THE SPREAD OF CHOLERA.

716. When a case of cholera occurs a sweeper shall be told off to attend the patient who shall be isolated within the prison precincts, and if possible between the outer and inner enclosure walls. The sweeper shall be supplied with cyllin solution of the strength of 1 in 100, and with some coaltarred earthenware gamlas. The sweeper shall remove and disinfect the *dejecta* and vomit of the patient and shall disinfect the floor and any latrines that may have been used. All clothes of the patient shall be destroyed by burning. Energetic treatment of the patient shall be undertaken. If two fatal cases of cholera occur, the disease shall be considered as epidemic, and the following measures taken:—

- (1) Rigorous isolation of the sick shall be enforced.
- (2) The barracks in which cases occur shall be vacated and disinfected and the prisoners of these barracks isolated in a vacant barrack, if suitable or available, or in tents pitched between the outer and inner walls.
- (3) Preventive inoculation shall be undertaken.
- (4) All latrines throughout the prison shall be carefully disinfected and earthenware vessels in use broken up and buried, new ones being brought into use.
- (5) All drains shall be kept clean and sprinkled with lime.
- (6) The issue of vegetables shall be stopped and a double ration of dal given. The issue of rice shall be stopped.

- (7) The cook-house shall be kept free from fleas, and all rations issued hot.
- (8) The wells shall be treated with permanganate of potash, and if further cases of disease occur drinking water shall be boiled in covered tins, the boiling and cooling processes being done with the covers on.

717. These measures are usually sufficient to prevent the spread of the disease, but it may be necessary to establish a camp outside the prison in consultation with the District Magistrate. In selecting a site consideration shall be given to the following points:—

- (a) facility for water-supply;
- (b) reasonable distance from all habitation;
- (c) proximity to the prison.

It is not advisable that prisoners should be moved long distances.

718. Careful sanitary arrangements shall be made for the camp and powdered lime freely used as a disinfectant for all latrines and *kachchus* drains.

719. The Superintendent shall maintain a reserve of tents, fetters and hel-chain.

720. The occurrence of a case of plague or serious epidemic of any disease shall be reported to Provincial Government.

721. *Plague*.—The usual precautions against the spread of infectious diseases are also effective in the case of plague in which preventive inoculation is a specially valuable measure. It has been found that strict quarantine of new arrivals in prison for 14 days is an effective barrier against plague.

VII.—DISINFECTION AND DISINFECTANTS.

722. The following disinfectants and methods of disinfection shall be adopted as circumstances require:—

- (a) *Disinfectants*.—(i) Mercuric chloride in strength of 1 in 1,000 is useful for the disinfection of rooms and clothes after small pox, measles, etc., but is not suitable for disinfecting excreta and other discharges as it coagulates albumen and loses its power of killing bacteria.
- (ii) Cyllin and hycol are coaltar derivatives and are non-poisonous; they are 18 times stronger bactericides than carbolic acid. The disadvantage in use is a tendency to stain clothes. They are usually employed in strength of 1 in 100 or 1 in 200.
- (iii) Bleaching powder is an excellent disinfectant, but rapidly loses its strength in this country, especially in hot damp weather, the whole of the disinfectant power being lost in three weeks after a closed drum is opened. It is particularly useful in the routine cleansing of well-water supplies.
- (iv) Kerosine or kerosine oil emulsion is used for killing insects such as bugs, fleas and lice which carry the infection of

Kala Azar, relapsing fever or plague. In relapsing fever kerosine mixed with mustard oil must be rubbed into the body and hair on all parts to kill lice and their nits.

- (b) *Disinfection of material.*—(i) Clothes, etc., should be boiled for 20 minutes.
- (ii) Silk fabrics injured by boiling should be placed in the sun for three periods of eight hours each.
- (iii) Bedding, tents, carpets, etc., should be soaked some hours in an acidified mercuric chloride 1 in 1,000 parts.
- (iv) Bedsteads should be washed down with cyllin or hycol, 1 in 200, or kerosine oil where plague or Kala Azar has occurred.
- (v) Metal vessels should be washed in cyllin or boiled in water.
- (vi) Leather goods should be carefully wiped over with formalin.
- (c) *Disinfection of stool.*—Cholera stools, vomit, etc., should be disinfected with cyllin or hycol, 1 part in 200, or evaporated to dryness in the *gamla* into which they are passed, over an ordinary Indian *chulha* specially kept for the purpose. Soiled clothes should be boiled or steeped for 24 hours in cyllin or bycol in a strength of 1 in 400. In using disinfectant with discharges care must be taken that the working strength of the disinfectant used is maintained. If, for example a given disinfectant is known to kill bacteria at a strength of 10 per cent., it is useless to add a 10 per cent. solution if no regard is paid to securing the presence of the disinfectant to the extent of 10 per cent. of the whole weight or volume of the material to be treated. An intimate mixture of the faecal mass and the disinfectant must be secured by means of a stout stick. The average volume of a stool is not less than eight ounces. In using hycol as a disinfectant of which the working strength is 1 to 200, it is necessary to add eight ounces of 1 in 100 dilution, to obtain a final dilution of 1 in 200.
- (d) *Disinfection of barracks.*—(i) The floor should be scraped and dry leaves or other refuse spread over the floor and burnt. When cleaned, lime should be sprinkled over the floor. All woodwork should be coaltarred. Rooms and walls should be washed down with mercuric chloride 1 in 1,000. When disinfection for cholera is required, cyllin or hycol, 1 in 200, or bleaching powder and water should be used in place of mercury. The walls should then be re-whitewashed.
- (ii) Floors when *pura* should be treated as walls; *kachcha* floors should be covered with lime to the depth of one inch.
- (iii) For drains use hycol, cyllin, bleaching powder or lime.
- (e) *Recipes for preparation of solutions:*—
 - (i) Mercuric chloride $\frac{1}{2}$ oz.
 - Hydrochloric acid 2 oz.
 - Water 3 gallons.

(ii) Cyllin or hycol 1 part.

Water 200 parts.

This is for walls, etc., for clothes use 1 in 400 parts.

(iii) Kerosine emulsion—

Hard soap, shaved fine, $\frac{1}{2}$ lb.

Water, one gallon.

Kerosine, two gallons.

Dissolve the soap in the water, which should be boiling; remove from the fire and pour it into the kerosine while hot. Churn this with a sproy pump till it changes to a creamy, then to a soft butter like mass. Keep this as a stock, using 1 part in 8 of water for soft-hodied insects, or stronger in certain cases.

VIII.—RULES FOR THE WATCH AND WARD OF PRISONERS IN ENCAMPMENTS.

723. Tents for the prisoners will be pitched in double line, having between them a street 20 paces wide measured from the tent pegs. A space of ten feet will be left between the pegs of the tents on each side.

724. Each tent will hold 24 prisoners and a Convict Overseer. A bright kerosine oil lamp will be suspended in each tent beyond the reach of the prisoners. It must be kept burning throughout the night.

725. The primary responsibility for all escapes rests with the Overseers, warder guards and prison watchmen who are in charge of the prisoners and are responsible for their watch and ward by day and by night.

726. Prisoners who are considered dangerous or likely to escape shall be fettered for safe custody. Such prisoners shall sleep together and be secured by a hel-chain, which must be so applied that each gang may be perfectly free to walk out of the tent or other place of confinement in a body, if so ordered. It must never be passed round a tent pole.

727. All prisoners shall be secured with a chain, passed through the ring of their fetters (or of an ankle ring if the prisoners have no fetters) and be fastened with a stout padlock. The warder sentries at each relief shall examine the state of the fetters, chains, etc., and ascertain that they have not been tampered with.

728. During the day a warder and a Convict Overseer shall be put in charge of every gang of 20 prisoners or under. The guard shall be proportionately increased for gangs exceeding 20 in number.

729. The Jailer shall see that all prisoners are in their tents before dusk. They shall be counted in the manner prescribed for prisoners in the prison. The Jailer shall then arrange for the posting of the Convict Officers and the warders in the following manner:—

(a) Two Convict Night Watchmen shall be posted to each occupied tent; one will pace in front of it and one in rear, each at a distance of five paces from the pegs.

(b) The Convict Night Watchmen shall be relieved every two hours. They shall see that no prisoner leaves his bed on any pretext without awakening the Convict Overseer of his tent, who will take charge of him.

- (c) A chain of Convict Warders shall be posted round the camp at a distance of about 25 paces from the pegs and 50 paces apart. It shall be their duty to see that the night watch are on the alert and that no person crosses the line of their beat.
- (d) The Convict Overseers and warders shall be relieved every three hours.
- (e) Twenty-five paces beyond the Convict Warders there shall be a chain of warders 50 paces apart. Their duty shall be to prevent any persons passing either to or from the camp.
- (f) The belt of ground between the two chains of night watch shall be kept brilliantly lighted up with torches.

730. The most trustworthy convict officers shall be selected for the duties specified in the preceding paragraph.

731. The Jailer and other Prison Officers in charge of the camp shall go round the prison sentries at uncertain periods and see that they are on the alert.

732. The camp hospital shall be guarded by day and by night on the system prescribed by the preceding paragraphs.

733. A police guard shall be stationed at the encampment in accordance with the rules sanctioned in paragraphs 734 and 749 given below. In case of any attempt to break into or out of the camp, or to commit a violent breach of discipline, the nearest sentry will immediately inform the officer in charge of the police guard.

IX.—NOTES FOR POLICE GUARD OVER PRISONERS IN ENCAMPMENT.

734. On its being decided to send prisoners into camp owing to an epidemic or other cause, the Superintendent of the Prison shall apply through the District Magistrate to the Superintendent of Police for a police guard, giving the following particulars:—

- (a) the number of prisoners to be sent out;
- (b) the hour and date they will start;
- (c) the place where the camp will be pitched.

At least 24 hours' notice should be given to the Superintendent of Police.

735. The Superintendent of the Prison shall keep the Superintendent of Police informed of any increase or decrease in the number of prisoners in the camp, and the Superintendent of Police will regulate the strength of the guard accordingly.

736. The strength of the police guard shall be:—

	Head Constables.	Constables.
Up to 100 prisoners	2	9
From 100 to 200 prisoners	2	12
From 200 to 300 prisoners	3	15
From 300 to 500 prisoners	3	18
From 500 to 700 prisoners	4	21

Above 700, an addition of one head constable, and three constables shall be made for every 100 prisoners or portion thereof.

737. The police guard shall only provide one sentry, who will be placed over the arms in the police guard tent and will be relieved every two hours.

738. The duties of the police guard shall be:—

- (a) to assist when called upon to do so in preventing all attempts to break into or out of any part of the camp;
- (b) to aid in the suppression of all violent breaches of discipline or opposition to authority by the prisoners.

739. The police guard shall be provided with ten rounds of buckshot and ten rounds of ball ammunition per man.

740. Including the sentry, half the police guard shall remain fully equipped at all times, ready to fall in at a moment's notice. In the morning and evening, at opening and closing time, the whole of the police guard shall fall in under arms and remain so till the Jailer reports that all is well; the guard shall then be dismissed.

741. The police guard shall be visited at least twice a week by the Reserve Inspector and once a week by a Gazetted Officer. These officers should make a point of seeing the Jailer in charge of the camp and of ascertaining that all is going well.

742. One or more lanterns with oil and matches will be supplied to the officer in charge of the police guard. The sentry's post must be adequately lighted at night.

743. In the event of any attempt to break out of the camp or any other disturbance the whole of the police guard shall immediately be placed under arms by the officer on duty and a messenger sent to the headquarters District Police.

744. The police guard shall not act without orders from the Jailer in charge of the camp, except in self-defence, or in order to rescue and save the life of any prison official towards whom the prisoners are actually committing violence, or to drive back the prisoners in the event of their having broken through the prison sentries.

745. If it is necessary for the police guard to act without orders from the Jailer in charge of the camp, the officer commanding the guard shall detach a party to the spot with orders to rescue any prison official in danger and prevent the prisoners from breaking out.

746. The officer in charge of the police party on arriving at the scene of disturbance shall give notice to the prisoners in a loud tone of voice, that if they do not immediately submit they will be fired upon. He shall repeat, if the circumstances admit of delay, this warning thrice, and if there appears to be no other means of quelling the disturbance, he shall open fire upon the refractory prisoners, being careful to cease firing the moment they submit.

747. On the arrival of a superior civil or police officer the guard shall act under his orders.

748. Detailed orders regarding the duties of officers, the safe-guarding of arms and ammunition and other points, shall be drawn up by the Superintendent of Police in accordance with the general orders.

749. A copy of these rules in English and vernacular shall be hung up in the police guard room in camp.

CHAPTER XXXII.

DEATH AND DISPOSAL OF THE DEAD.

750. The Superintendent shall give timely information, when possible, to the relatives of a prisoner who is seriously ill, so that in the event of death, they may be afforded the opportunity of disposing off the body themselves.

751. On the death of any prisoner in the prison, the Superintendent shall give notice to the nearest relatives of the deceased through the Magistrate of the district to which he belonged, and return his warrant duly endorsed to the court concerned.

752. In every case of illness which ends fatally the Medical Officer shall see the body of the prisoner and shall record full particulars of the cause of death in the death register. When there is doubt regarding the cause of death, the Medical Officer shall make a regular post-mortem examination, and record the result in the register. In the event of several deaths from any prevailing disease, a post-mortem examination should be made in one or more selected cases.

753. In every case of sudden or unnatural death or supposed suicide or whenever there is doubt or complaint or question concerning the cause of death of any prisoner, the Superintendent shall forthwith report the fact to the District Magistrate who may himself hold an inquest or direct another duly empowered Magistrate to do so.

754. After the inquest is over, the Superintendent shall submit without delay to the Inspector-General of Prisons a full report of the whole circumstances connected with the case.

755. No investigation by the police shall be made inside the prison except under the orders of the District Magistrate.

756. (a) The body of any prisoner who dies in prison or is executed shall be made over to the friends or relatives of the deceased, if claimed by them, unless there are any special reasons to the contrary, e.g., the prisoner has died of any infectious disease or, in the case of a prisoner who has been executed, there are grounds for supposing that the convict's funeral will be made the occasion of a public demonstration, in which case due notice shall be given to the District Magistrate.

(b) There shall be a burial ground attached to the prison distinctly marked off or enclosed for the burial or cremation of prisoners.

757. (a) The Jailer shall arrange for the thorough cremation of the bodies of Hindu prisoners which are not claimed by their friends.

(b) The corpses of all Muslim prisoners, if not claimed by their friends, shall be buried by prisoners of their own religion.

(c) In the case of Europeans, intimation will, when necessary, be sent to the Magistrate who will arrange for the burial of the corpse in the local cemetery with due rites.

758. The Jailer shall be held responsible that every corpse sent out of the prison for cremation or burial is decently covered.

759. The following are the rules to be observed in the case of a suicide committed by drowning in jail wells:—

- (I) The Jailer shall in all cases where there is no emergency report to the Superintendent of the Jail the object to be gained by sending the diver down the well.
- (II) The Superintendent of the Jail shall then determine whether it is necessary to send the man down the well; shall examine the prisoner who is to dive; ascertain that he has been accustomed to the duty; that he is willing to perform it; and that he is in sound health and fit for the duty.
- (III) No prisoner shall be sent down a well except in the presence of the Jailer of the prison.
- (IV) The Jailer shall be held responsible that, before the man is let down to the water by the mat, a strong hempen or alos fibre rope capable of carrying at least two maunds shall be tied securely round the man's body under his armpits. The rope should be specially made and kept for the purpose, and should be of such a length as to allow the diver to reach the bottom of the well and to leave several yards spare at top, which should be held by four able-bodied prisoners.
- (V) The diver should not be allowed to remain under water more than 90 (ninety) seconds; on the expiry of that interval, the Jailer superintending the diving should give orders to have the man raised to the surface.
- (VI) The Jailer will be held responsible that the rope for the above purpose shall be kept in good order and in a secure place at the main gate.
- (VII) It is to be understood that these rules are not meant to be applied to cases in which the recovery of a suicide's body is rendered imperative suddenly.

Any prisoner showing the slightest tendency to suicide shall be confined in a separate cell until the Medical Officer shall have determined the question of his sanity or otherwise. The Jailer will be held responsible, as in the case of condemned criminals, that the prisoner is thoroughly searched and deprived of all means by which self-destruction may be accomplished.

CHAPTER XXXIII.

LABOUR.

760. The Superintendent shall provide suitable labour for the convicts sentenced to rigorous imprisonment or those sentenced to simple imprisonment who have elected to labour.

Note.——For the rules relating to the employment of Class A and B convicts refer to chapter XIII.

761. The Superintendent shall not employ convicts on work which is likely to endanger life or limb.

762. No convict shall be made to work for more than nine hours on any day, except on an emergency and with the sanction in writing of the Superintendent.

763. Convicts shall not be required to perform any labour, other than that which is indispensable for the essential prison services, on Sundays or on the undermentioned festivals:—

765. The Superintendent shall employ every convict in accordance with the class of labour determined by the Medical Officer. The labour allotted on admission and subsequent changes of labour shall be recorded on the history-ticket under the initials of the Superintendent.

766. On admission every convict who is physically fit shall be put on hard labour such as grinding grain, or pounding moonj. If he knows

a trade carried on in the prison, he should be put on that trade at once to utilize his expert knowledge. Long-term convicts shall be put in factories to enable them to learn trades or professions.

767. Every convict on being assigned any kind of work shall be allowed a reasonable time in which to learn it.

768. Labour in the prison may be—

- (1) intramural, i.e., within the outer main wall, or
- (2) extramural, i.e., beyond the outer walls of the prison.

769. In the hot weather, convicts employed on extramural labour or in the open shall be exempted from labour between 10 A.M. and 2 P.M. All convicts working in shade shall cease work at 11 A.M. and resume work at 2 P.M. In the winter all convicts shall cease work at 11 A.M. and resume it at 12 noon.

Convicts in infirm gangs and weekly convicts shall be allowed a midday rest of two hours throughout the year and shall do such light work as may be allotted to them within the hospital enclosure.

770. Female convicts shall be employed on repair of clothing, cleaning grain, etc., and may be given instruction in needlework, knitting and other domestic industries. They shall not be employed on grinding grain.

771. The Jailer shall keep suitable convicts under training in all forms of skilled labour in order to replace artisan convicts on release. The proportion of such convicts shall not be less than 20 per cent. in each department of the factory.

772. When any gang of convicts is employed on any particular work, a task board shall be prominently displayed. These task boards shall be 2 feet by 1 foot in size and painted black. On these boards shall be written in chalk the prescribed task.

773. (a) The Jailer or other officer in charge of a work gang shall check every evening the quality and quantity of the work done and shall see that all convicts perform their allotted tasks, noting the work done on the prescribed labour tickets which shall be maintained for tasked labour only.

(b) He shall check all tools every evening and cause them to be collected and stored in a place of security and shall enter in the tools lists the number of tools so stored.

774. Literate convicts shall not be employed in the prison office. No prisoner convicted of forgery shall be entrusted with the care of history-tickets, barrack lists, etc.

775. The total number of prison servants and hospital attendants shall not exceed 10 per cent. of the prison population.

776. The Superintendent shall allot labour to each convict with due regard to the capacity of the convict and the suitability of the task. He, however, may allot conservancy work to high caste Hindus who volunteer for it, subject to the following conditions:—

- (1) Volunteers should be employed only if the Superintendent having regard to the requirements of the jail deems it necessary to call for volunteers to be employed on conservancy work.

- (2) The fact that a particular prisoner volunteers for conservancy work does not establish any right to be employed in that capacity.
- (3) There shall be a properly attested record of the fact that particular prisoners have volunteered to prevent any subsequent charge that this labour is exacted from them.
- (4) Volunteers to whom conservancy work is allotted, must perform that work in its entirety and for so long as the Superintendent of the jail may direct. There should be no half measures, such as the combination of other employment with a little conservancy work.
- (5) The Superintendent shall have full discretion to discontinue such employment any time.
- (6) Volunteers, to whom conservancy work is allotted, will not necessarily live in a barrack with the rest of the conservancy gang, but shall live where the Superintendent directs. It is necessary to prevent the possible corruption by association of the genuine sweeper staff with high caste volunteers.
- (7) Children and minors shall not be accepted as volunteers.

II.—EXTRAMURAL LABOUR.

777. The undermentioned classes of convicts shall not be employed on extramural labour:—

- (1) Convicts under sentence of imprisonment for terms exceeding five years.
- (2) Convicts belonging to any of the following classes:—
 - (a) dacoits;
 - (b) those who have previously escaped or have attempted to escape;
 - (c) poisoners;
 - (d) specially dangerous criminals who have been convicted of organized crime;
 - (e) residents of foreign territory or an Indian State;
 - (f) those for whom an order of surveillance under section 665, Code of Criminal Procedure, 1898, has been passed;

 - (h) those who have been sent to the prison in default of furnishing security under chapter VIII of the Criminal Procedure Code,
 - (j) Juvenile convicts.

778. Subject to the provisions of the foregoing paragraph, the following convicts may be employed on extramural labour with the sanction of the Superintendent:—

- (a) Convicts sentenced to one year or less who have completed one quarter of their term.

- (b) Convicts sentenced to more than one year and less than three years who have completed half of their sentences.
- (c) Convicts sentenced to three years or more, but not more than five years, who have not more than $1\frac{1}{2}$ years to serve.

779. The Jailer is responsible that no convict shall at any time be employed on any labour outside the prison walls—

- (1) unless he is eligible under the rules contained in this chapter; and
- (2) unless and until the Superintendent shall have sanctioned his being so employed by an entry in the convict's history-ticket.

780. When at any time a sufficient number of convicts eligible for extramural labour is not available for any essential prison service, e.g., the conservancy, trenching night-soil, or water supply, etc., the Superintendent may employ free labour for such essential services for such period as the shortage of prison labour lasts. The charge may be debited to the budget head "Sanitation Charges".

781. Before any convict is employed on extramural work, the Jailer shall certify on his history-ticket, after examining his conviction warrant, that he is fit for extramural employment under the rules contained in this chapter.

The convict shall then be brought up before the Superintendent who, after satisfying himself that the convict is eligible for such employment and that there is nothing in his previous conduct to indicate that it would be imprudent to trust him outside, will sanction his extramural employment.

782. The Superintendent may employ convicts in extramural gangs within the prison precincts on the following kinds of labour:—

- (1) Work in the prison garden and the grounds used as farms or for production of grain and fodder.
- (2) Building, repairs and alterations of the quarters of the prison officers, of roads and of other works.
- (3) Trenching night-soil removed from the prison.
- (4) Cleaning and conservancy of the lines of the prison warders and other officials.
- (5) Water supply arrangements for the prisoners and the prison officials resident on the prison grounds.

783. The Inspector-General of Prisons is authorized to sanction employment of convicts outside the prison limits solely for the prison purposes under such conditions as he may consider necessary for the safe custody of convicts.

784. The employment of the following gangs outside the prison precincts, has been sanctioned by the Provincial Government as a special case:—

- (1) Mirshali well gang.
- (2) Superintendent's garden gang.
- (3) Water gang for the Residency, the Civil Surgeon's house and the Commissioner's house.

785. A gang of sweepers and water carriers shall visit twice a day each quarter occupied by the prison officers, within the prison grounds. Each house shall be cleaned and supplied with water by the gang, which shall then be marched to the next house. No convicts of this gang shall be left about a house. If the Jailer is allowed a garden, a regular gang of not more than four convicts may be detailed to work in it.

786. All officers are prohibited from employing convicts in attending to animals which do not belong to Government. The employment of convicts as house servants of any description is strictly prohibited. Any officer who wilfully disregards these rules will render himself liable to dismissal.

787. All convicts employed outside the prison wall shall ordinarily wear chain fitters. Convict Warders and Overseers shall not be fettered.

788. The number of convicts working in the prison garden gang or in any other gang within the prison precincts under two warders shall not exceed twelve, and in the gangs working outside the prison precincts six.

789. Each extramural gang shall be employed on one form of labour only and shall be under the charge of two paid warders.

790. When an extramural gang employed beyond the prison precincts consists of more than the authorized number or is employed in the vicinity of high crops or at a considerable distance from the prison, the Superintendent may post one or more reserve warders who shall accompany the gang and station themselves in a commanding position to assist in watch and ward. The reserve warders shall be armed with musket and buckshot ammunition.

791. The duties of the Jailer and the intramural head warder on day duty in connection with visits to extramural gangs working within the prison precincts are laid down in paragraphs 169 and 190.

792. The Jailer shall make suitable arrangements for sending the midday diets of the convicts working in extramural gangs at a distance from the prison.

793. The duties of the gate-keeper in connection with extramural gangs are prescribed in paragraph 239.

794. Warders in charge of an extramural gang shall keep their convicts as much together as possible and must keep them within sight at all times. On no account whatever is a convict to be allowed to straggle away from his gang. If any convict declares urgency one of the warders incharge shall take him so far only as may be actually necessary and shall keep him within sight.

795. (a) If a convict escapes, the warders shall give an immediate alarm by blowing their whistles and one warder will pursue the convict, leaving the gang in the charge of the other warder, who shall march it immediately to the main gate, and shall inform the gate-keeper of the occurrence and have the alarm sounded at once.

(b) In the case of gangs working at a distance from the prison, one warder shall pursue the convict and shall give immediate information to the Jailer by telephone, if one is close at hand, and the other warder shall march the gang to the prison.

CHAPTER XXXIV.

GARDEN.

796. The Superintendent shall be responsible that the garden contains at all seasons a sufficient quantity of good wholesome vegetables and condiments for the prisoners' use, and that the whole of the prison land, between the outer and inner walls and outside the prison walls, available for cultivation is cultivated to the best advantage. All spare lands should be utilized for raising of crops for the prisoners' food and for fodder for the cattle.

797. The Jailer shall be responsible that all crops grown on prison lands are reaped at the proper time and immediately brought into store, and that proper precautions are taken against peculation, loss or misuse.

798. No tree on prison lands should be cut down or otherwise removed without an order in writing of the Superintendent. The wood obtained shall be utilized for prison purposes only.

799. The Jailer shall plant a proportion of lime trees each year to keep up the supply of limes and is responsible that they are watered regularly specially in the hot weather. Tamarind, bel and mango trees should be grown in the prison compound and their fruit collected and stored for issue to prisoners.

800. (a) *Garden and Vegetables.*—A Head Warden or Warden who understands gardening should be in immediate charge of the garden and may be specially recruited for the purpose. This Warden should be exempted from night duty.

(b) The number of convicts employed in cultivation of the vegetables and condiments for Jail use shall depend on the Jail population and be in accordance with the following scale:—

8 per cent. on a population of over 500 prisoners,

6 per cent. on a population of and below 500 prisoners.

801. The prison garden shall be kept neat and clean, free from weeds and undergrowth. Shrubs and trees should be grown around well-runs to provide shade for the bullocks. The nursery should be near the well on elevated ground not liable to flooding.

802. Dry leaves and vegetable matter should be raked up and collected in pits. Decayed leaves contain all the elements necessary to make a perfect plant food and with farmyard manure should be put on the ground to a depth of 6 inches and then dug well into the soil.

803. Successful gardening requires frequent and thorough surface tillage, and careful attention to weeding and irrigation at proper times.

804. All available land in the garden shall be laid out in large fields. Irrigation channels built of brick-in-lime should be provided to carry water from the wells to the fields.

805. Corresponding to the *Kharif* and *rabi* crops of the cereals, there are two main crops of vegetables. One is in season from April to July

and the other from August onwards. The chief country vegetables are:—

<i>Kaddu.</i>	<i>Karela.</i>
<i>Arvi.</i>	<i>Bhindi.</i>
<i>Lauki.</i>	<i>Torai.</i>
<i>Kakri.</i>	<i>Brinjal.</i>
<i>Muli.</i>	
<i>Khira.</i>	<i>Beans.</i>

They require frequent watering especially in the hot weather. The sowings for the hot weather crops shall commence about the end of January and continue till the beginning of April, and from May onwards sowings of the rains varieties should be made.

806. Two or more large fields should always be under the sags which have great anti-scorbutic value and can be sown broadcast. *Palak*, *chaulai*, *kulfa*, and *China cabbage* should be sown extensively in the proper season.

807. Chillies and other condiments should be grown in prison fields for issue to the prisoners. *Patra* (*Roselle*) should also be grown to supplement the supply of anti-scorbutics.

808. Onions should be sown in nurseries in late November and transplanted in January. Sufficient onions should be grown to provide 30 maunds for every 100 prisoners.

809. Time of sowing brinjals is—

For round variety or *maroo*—February and October.

For long variety—June.

810. Potatoes, yams, pumpkins, onions and other vegetables which are capable of being stored should be cultivated extensively and stored for use during the time when fresh vegetables are scarce.

811. English vegetable seeds should be sown in the nurseries from late September onwards to January in succession. Acclimatised seeds of these varieties may be sown in August or September when the nurseries will require *chhappars* to protect them from the sun and heavy rain. *Sirki pals* placed on bamboo frames give good shade; the height of such shelters should be 6 feet on the north side sloping to 4 feet on the south side with a depth of 6 feet.

812. Special sowings of root vegetables such as beet, turnip, swedes, mangel wurzels should be made in December so that the crops will mature in April or early May for use when other vegetables are scarce.

813. An alphabetical list of vegetable seeds showing times for sowings is given in the form giving calendar for sowing vegetable seeds (Form No. 51) for the guidance of the Jailer. It should be hung up in the Jailer's office.

814. Vegetables from the prison garden shall be allowed daily free of charge to the Superintendent, the Jailer, the Deputy Jailer, the Assistant Jailer, the Clerk and the Sub-Assistant Surgeon sufficient for the requirements of each household, provided that the requirements of the prison have been in the first place fully supplied. The allowance for each officer shall be inspected by the Superintendent on his arrival at the prison. If there are vegetables to spare they may be given to head warders and warders to the extent of their personal needs.

CHAPTER XXXV.

DISCIPLINE AND NIGHT WATCH.

815. (a) The Jailer is responsible that every prisoner in the prison shall both by day and by night be in charge of a prison officer. A record of the name of every prisoner shall be kept in a gang book during the day and in a barrack list during the night. The gang books and the barrack lists shall be so maintained and the relief of the prison officers so carried out and recorded that the responsibility for an escape resulting from negligence can be fixed definitely and beyond all doubt.

(b) The officers under whose immediate charge the prisoners are placed shall carefully watch them in their various movements and employments and use the utmost elasticity and vigilance to prevent escapes.

816. (a) All movements of prisoners from one part of the prison to another shall be carried out in an orderly manner, the prisoners marching in pairs at the word of command.

(b) No prisoner shall on any account be allowed to leave his work or place without permission and if he has to be sent to any other part of the prison, he shall be accompanied by a Convict Overseer or other responsible officer.

817. For day work the whole of the head warders and warders on the establishment, excluding the reserve guard, shall ordinarily be divided into two squads. The first squad shall come on duty at the opening of the wards and the second squad at midday.

818. The unlocking and locking up of all barracks shall be carried out under the general supervision of the Jailer by the Deputy Jailer, the Assistant Jailer and Clerk. The Jailer shall detail the distribution of duties at unlocking and locking up among these officers and shall allot barracks to each officer. The Jailer shall frequently visit the different divisions of the prison to see that the unlocking and locking up are carried out correctly.

819. (a) The circle bell shall be rung half an hour before sunrise throughout the year.

(b) The prisoners will rise as soon as the bell rings. They will fold their beddings and blankets neatly on their sleeping berths, and shall then sit in double file down the centre of the ward.

820. (a) On the arrival of the Jailer and other prison officers each barrack shall be unlocked. The prisoners shall be marched out in file and counted by the Head Warder in the presence of the Warders who are to take over charge of the prisoners. The officer supervising the unlocking shall verify the number counted out of each barrack by comparison with the entry in the barrack list.

(b) The Head Warder shall let out of their ward the convict officers who are to watch the prison walls during the day. One of the warders shall take them to the latrine and then post them round the prison walls.

(c) Specially selected convict officers shall be posted along the main wall by day. Each convict officer shall patrol a prescribed beat. A

duty roster showing the names of the convict officers employed on this duty and the post they occupy must be kept and written up daily by the Jailer. The posts of these convict officers should be changed daily.

When the convict officers on wall duty are not changed at midday, arrangements shall be made to allow of their having their meals at proper intervals, and for bathing, etc.

821. When the prisoners have been counted and the Jailer has satisfied himself that the number of prisoners unlocked is correct, the night duty warders on 5th watch shall be marched out of the prison.

822. The prisoners shall then visit the latrine and bathing platform in an orderly manner. When the convicts have washed their hands and faces, the early morning meal shall be distributed by the cooks at the appointed place.

823. When the prisoners have had their morning meal they shall be distributed into their respective gangs under the order of the Jailer. A record of the names of prisoners made over to each warden during the day shall be kept in a gang book and every subsequent change of a prisoner from one gang to another shall be recorded therein under the initials of the Jailer.

824. The gang books shall be checked and initialled daily by the officer supervising the distribution of work in the morning and again checked at midday when the second day-squad relieves the first day-squad of warders.

825. The warden in charge of each gang shall march his gang to its working place. When the gang arrives at its place of labour the convicts shall arrange their vessels in a line near by.

826. At 11 o'clock the circle bell shall be rung. The convicts shall stop work and take their vessels, etc., and march in file to the appointed place for the distribution of the midday meal. Here they will sit down in a double line and the cooks will distribute the food in the presence of a prison officer.

827. When the meal is finished the prisoners at the word of command shall stand up together, march in pairs and as they file past they will throw any refuse food left in their plates into the tubs placed for the purpose. They shall wash their plates, hands and mouth and then be marched to their place of labour.

828. The Jailer, Deputy Jailer, Assistant Jailer or Clerk shall be present when food is distributed to the prisoners in the morning, at midday and in the evening. He shall verify the weight of a number of rations issued and frequently test the scales and weights used and report in writing that the food distributed was correct in weight or otherwise, noting any complaints made by the prisoners.

829. The warders of the first day-squad coming on duty at the unlocking of the wards in the morning shall be relieved at midday by the second day-squad. Every long-term and dangerous prisoner shall be specially pointed out to the relieving Head Warders and warders so that particular watch may be kept on him.

830. At 4 p.m. in the winter and 5 p.m. in the summer the circle bell will be rung for locking up and the convicts shall cease work. The convicts shall gather up their vessels and march to the spot where the

gangs were formed. When the Head Warden has counted them they shall march to their respective enclosures and after visiting the latrine and having washed their hands and faces shall receive the evening meal.

831. (a) The night duty warders shall be divided into five squads and their hours of duty shall be as follows:—

First Watch from lock-up to 9 P.M.

Second Watch from 9 P.M. to 11 P.M.

Third Watch from 11 P.M. to 1 A.M.

Fourth Watch from 1 A.M. to 3 A.M.

Fifth Watch from 3 A.M. until the unlocking is completed.

Each squad consists of five warders under a Head Warden or Gate-Keeper.

(b) Each warden's beat should be changed daily and a record kept in the lock-up register of the name of the warden put on each beat in each watch.

(c) The Head Warden in charge of each night watch shall search the warders between the gates when they enter the prison and also when they leave the prison.

832. Half an hour after the circle bell rings to cease work, the Head Warden in charge of the first night watch shall march his squad into the prison and shall put them on the duties allotted by the Jailer.

833. After the completion of the evening meal the prisoner shall be searched and locked up in the following manner:—

(1) The prisoners shall collect their complete kit of clothing and bedding and parade in line outside their sleeping barracks, and the Head Warden on night duty and the warden in charge shall search each barrack and examine the gratings. On the word of command the prisoners shall stand up and advance four paces in front of their beddings.

(2) The night duty warders and convict officers of the barrack shall then carefully search every prisoner, his clothing and bedding in the presence of the Head Warden on night duty and the officer in charge of the barrack. When the search is over the prisoners shall re-form ranks, roll up their beddings and sit in pairs.

(3) The officer superintending the locking up shall call out the names and hours of duty of the convict officers and satisfy himself that they know the hours of their duty. The prisoners shall then stand up and march in pairs to the gate of the barrack where the said officer shall call out and mark on the barrack lists the name of each prisoner, who shall enter the barrack on his name being called at the same time repeating his berth number and go to their berths.

(4) The prison officers will then lock the door, but will remain present till the convict officer on the first watch has counted the prisoners and reported the number of prisoners and all well. The officer in charge shall record the number locked up in the lock-up report book.

834. The prisoners may talk in the barracks after lock-up to 8 p.m., but loud talking, singing, etc., shall not be allowed.

835. The berths in every barrack shall be numbered, even numbers on one side and the odd numbers on the other. A berth shall be allotted to every prisoner and the number of the berth shall be entered on the barrack list and the prisoner's history ticket. As far as possible, Hindus and Muhammadans should be indiscriminately mixed together in the barracks. In like manner, prisoners of one caste should not be grouped together. Prisoners shall not be transferred from one barrack to another without the orders of the Jailer.

836. Convicts sentenced in the same case shall be confined in different barracks, and shall as far as possible work in different gangs.

837. Every barrack shall be provided with a sufficient number of lanterns. The lanterns shall be suspended from the roof and shall be at least 8 feet high from the ground so as not to be accessible to prisoners.

838. Rules regulating the watch and ward and lighting of association barracks apply equally to cell blocks and the barracks containing cubicles in which the convict officers will be on duty and the lanterns will be kept burning.

(a) The Jailer shall maintain a register of locks and keys in which a description and the number of all the locks and keys by bunches and the names of the barracks, cells or store-rooms, where they are in use, shall be entered.

(b) On each bunch of keys there shall be a brass disk showing the number of the bunch and the number of keys on that bunch and the key chest shall be provided with books serially numbered in correspondence with the numbers on the bunches of keys.

(c) After lock-up the keys of all barracks, cells, godowns and workshops will be lodged in the key chest and the Jailer shall verify the number and certify in the lock-up report book that all keys have been correctly received back from all officers and that they have been placed in the key chest.

(d) A list of keys which remain in the possession of officers and are not deposited in the key chest shall be entered separately in the register of locks and keys.

(e) The loss of a prison key shall be at once reported to the Superintendent. A lock the key of which has been lost or mislaid shall be destroyed in the presence of the Superintendent and then written off stock in the lock and key register.

(f) The locks of the doors of all sleeping barracks and cells shall be so arranged that the prisoners cannot reach them from the inside.

The inner gates of all enclosures within circles shall be kept open at night, but the gates of the circles will be securely locked. One key of these locks will be with the Head Warden on duty and the other will be kept in charge of the sentry on the main gate for the use of the officer on night round duty.

840. The duties of the Head Warden on night duty are:—

(1) to see that the night sentries inside the barrack are on the alert;

- (3) to acquaint himself with the appearance of all prisoners in the barrack;
- (4) to allow no prisoner to approach the gratings unnecessarily or to sleep on the floor between the sleeping berths or close to the gratings;
- (5) to perform two or three hours' night watch during which he shall patrol up and down the barrack and keep on the alert;
- (6) to report cases of sickness.

845. Relief of the Convict Night Watchmen shall take place in the presence of the warder on night duty.

846. The Superintendent shall detail for night round duty each night the Jailer, Deputy Jailer, Assistant Jailer or Clerk who shall go round the prison at an hour not known beforehand, which should be subsequently recorded in the Gate Book.

847. The duties of an officer on night rounds are:—

- (1) He shall visit all parts of the prison and all posts and sentries.
- (2) He shall demand reports from all sentries regarding the condition of gratings, bolts and locks and the count of prisoners, and shall satisfy himself that all lamps are burning brightly.
- (3) He shall check some of the prisoners on their berths from the barrack lists.
- (4) He shall, on the termination of the round, record in a detailed report in the gate book that he has carried out these duties and shall report any untoward occurrence or irregularity that comes to his notice. He shall note the actual time of the commencement and termination of his round.

848. No barrack shall be opened during the night except in cases of urgent necessity, and then only in the presence of the Jailer, who is responsible that a sufficient number of warders and convict officials is present to repel any attempt at an outbreak of the prisoners locked up in the barrack. Before any barrack is so opened a chain shall be passed through the door post and the grating of the door, and secured with a lock so as to allow only one person to get out of the barrack at a time and to make it impossible for the prisoners to attempt a rush.

849. If from any cause the prison at any time becomes temporarily insecure, the Superintendent shall intimate the fact to the Superintendent of Police, who shall supply a police guard of the requisite strength to provide for the safety of the prisoners until the prison is made secure.

850. The following rules are prescribed for the care and use of the watchman control clocks:—

- (1) The Superintendent shall fix the control clock stations at such points as he considers most important in the beat of a Head Warder or warder who is to carry the clock. They shall be so arranged that in proceeding from one post to another the Head Warder or warder cannot avoid visiting

CHAPTER XXXVI.

FETTERS FOR SAFE CUSTODY.

851. Fetters for safe custody shall be of two kinds, i.e., bar fetters and link fetters.

- (a) Bar fetters shall consist of two round iron bars, each bar 20 inches in length, connected at one end by a ring $1\frac{1}{2}$ inches in diameter and with ankle rings at the other end for fastening them to the leg. The total weight of such fetters including the ankle rings shall not exceed five pounds, and the round iron for the bars, the ring and the ankle rings shall be half an inch thick.
- (b) Link fetters shall be composed of a chain and ankle rings. The total weight of such fetters, including the ankle rings shall not exceed three pounds and the chain shall not be less than 2 feet in length.

852. The Superintendent, in his discretion, may impose bar fetters on the convicts under sentence of transportation for the first three months after admission to prison. Should the Superintendent consider it necessary for any reason, that fetters should be retained on such prisoner for more than three months, he shall apply to the Inspector-General for sanction to their retention for the period for which he considers their retention necessary and the Inspector-General may sanction such retention accordingly.

853. A convict sentenced to rigorous or simple imprisonment shall not be placed in fetters unless such convict has shown by his conduct in prison that he is violent or dangerous or unless he has escaped or has attempted to escape or has made preparations to escape from the prison: Provided, that the Superintendent, for any other special reasons to be recorded in writing, may impose fetters for safe custody on any prisoner.

854. Fetters on convicts who have been imprisoned under section 224, Indian Penal Code, for escape or attempt to escape from the prison shall be distinguished by a ring of brass one-half inch wide soldered around each bar at its middle.

855. The Superintendent may impose bar fetters on under-trial prisoners for safe custody if the character of the offence or of the prisoner gives reasonable grounds for considering this to be necessary.

856. The Jailer shall be responsible when fetters are imposed for safe custody that the fetters have double riveted ankle rings and that the link connecting the bars is welded and is of the same thickness as the bar and that the ankle rings are small enough to prevent their being drawn over the feet.

857. The Jailer shall examine all fetters imposed for safe custody once a week and note the result in his report book.

When the Superintendent orders fetters of any kind to be imposed on any convict or under-trial prisoner for safe custody he shall record the imposition of fetters and the reasons therefor on the history or detention ticket. He shall also cause a record to be made in the fetter register of the prisoner's number and name, the date on which the fetters were imposed and removed, the period for which they were imposed and the reasons for imposition.

861. The use of the hel-chain is absolutely prohibited in the case of convicts or under-trial prisoners except when they are confined in open spaces outside the prison or in tents within the prison.

CHAPTER XXXVIII.

OUTBREAKS AND ESCAPES.

'882. The following rules have been made under clause (6), section 59, Act IX of 1894, for the use of arms against any prisoner or a body of prisoners, in the case of an outbreak or attempt to escape:—

- (1) Any officer of the prison may use a sword, bayonet, firearm or any other weapon against any prisoner escaping or attempting to escape: provided that resort shall not be had to the use of any such weapon unless such officer has reasonable ground to believe that he cannot otherwise prevent the escape.
- (2) Any officer of the prison may use a sword, bayonet, firearm or any other weapon on any prisoner engaged in any combined outbreak or in any attempt to force or break open the outer gate or enclosure wall of the prison, and may continue to use such weapon so long as such combined outbreak or attempt is being actually prosecuted.
- (3) Any officer of the prison may use a sword, bayonet, firearm or any other weapon against any prisoner using violence to any officer of the prison or other persons: provided that such officer has reasonable ground to believe that the officer of the prison or other person is in danger to life or limb, or that other grievous hurt is likely to be caused to him.
- (4) Before using firearms against a prisoner under the authority conveyed in rule (1) of this paragraph, the officer of the prison shall give a warning to the prisoner that he is about to fire on him.
- (5) No officer of the prison shall, in the presence of his superior officer, use arms of any sort against a prisoner in the case of an outbreak or attempt to escape except under the orders of such superior officer.

(See part V of G. G. O. No. 12-Jails-500-510, dated the 31st August, 1896.)

883. It is the duty of the officer who first notices that a disturbance is taking place or appears imminent or a prisoner is missing or is attempting to break prison, to blow his whistle continuously and to send to the Gate-Keeper with all possible haste such information as is known regarding the character of the occurrence that has taken place or is about to take place. Every officer hearing a whistle shall blow his own whistle and continue whistling until he hears the alarm bell ringing.

884. In the event of an outbreak or escape occurring at the prison, the Jailer shall send at once intimation of the cause for the alarm to the Superintendent. He shall also give immediate notice to the Superintendent of Police and the District Magistrate.

885. The District Magistrate shall afford all assistance possible to the prison authorities in case of threatened disturbance or combined insubordination amongst the prisoners.

886. (a) The Gate-Keeper, as soon as he hears a whistle sounding continuously or receives notice of any prisoner having escaped, or of a disturbance having taken place or being imminent, shall order the sentry to fire his musket into the air and to sound the alarm, and shall send immediate notice to the Jailer.

(b) The sentry on duty at the main gate shall raise the alarm by firing a blank cartridge and loudly sounding the alarm bell when ordered to do so by the Gate-Keeper or on his own initiative if he has reason to believe that an outbreak or disturbance or attempt at escape is occurring.

887. On the sound of the alarm all prison officers excepting warders on duty shall assemble forthwith at the main gate. The warders shall fall in near the armoury and be armed as quickly as possible with rifles, bayonets and twenty rounds of buckshot ammunition. Warders for whom rifles are not available shall be armed with *lathis*. A sufficient number of *lathis* shall be kept in the stock in the armoury for the office establishment and warders.

888. (a) Warders on duty in charge of prisoners or gangs of prisoners inside the prison shall collect the prisoners where they are at work and shall lock them up in the nearest barrack or factory. The gangs working outside the prison shall be marched in file at the doublets to the main gate and shall be locked up in the nearest available barrack. All prisoners locked up in barracks or factories shall be counted by the warder in charge. They shall sit silently in file till the alarm is over.

(b) Warders and Convict Warders, after locking up the prisoners in their charge, shall remain on sentry duty outside the barracks or factories in which the prisoners have been locked up, unless otherwise directed.

889. Pending the arrival of the Superintendent, the Jailer or Deputy Jailer shall be responsible for carrying out the following routine precautions:—

- (1) He shall post sentries above the main gate to observe and report the movement of the prisoners and detail a party of warders for duty around the main wall of the prison.
- (2) If the sentries on the main gate roof report that the main gate is clear, he shall take the remainder of the guard inside the prison.
- (3) In the event of an outbreak, he shall proceed to the scene with the guard and if the circumstances are such as to necessitate immediate action, he shall warn the prisoners three times in a loud voice that if they do not submit at once and peacefully disperse, they will be fired upon. If the circumstances are such as do not admit of delay, the warning need not be repeated.
- (4) If, upon being 'warned,' the prisoners do not submit and disperse, and if there appears to be no other immediate means of quelling the disturbance, he shall order the guard to fire upon them. But firing shall cease the moment the prisoners disperse or yield.

890. The Superintendent on arrival shall assume charge of the operations.

891. When the alarm has been concluded the prison bell shall be rung thrice as a signal for all officers to return to the main gate where a roll call shall be held and the names of the officers who were late in turning out or absent shall be noted for necessary action. The Reserve Head Warder shall collect the unexpired ammunition and render to the Jailer an account of the cartridges fired.

892. The Superintendent shall report the facts of the outbreak or incident to the Inspector-General and shall report the result of the inquiry held by him.

893. The District Magistrate shall also conduct an inquiry and record a judicial finding on the cause of the outbreak and the conduct of the officials concerned. A copy of this report shall be forwarded by the District Magistrate to the Inspector-General direct.

894. (a) The Superintendent shall hold an alarm parade based on the above rules at least once a month.

(b) When the alarm parade is over and before the reserve guard is withdrawn from inside the prison each warden shall fire three cartridges loaded with buckshot on a safe target to impress on prisoners the fact that warders carry loaded arms on these occasions.

895. In the event of a prisoner being missing, the Jailer shall form immediately search parties of warders and convict officers, and conduct a thorough search of the prison premises for the missing prisoner.

896. When an escape has taken place and attempts at recapture have been unsuccessful, the Superintendent shall give immediate notice to the District Magistrate, and shall send a descriptive roll of the prisoner with all information available including the prisoner's place of residence and the reward offered for his re-apprehension to the Superintendent of Police, Ajmer. Similar reports and descriptive rolls shall be sent to the Superintendent of Police of the District in which the prisoner's home is situated and the districts adjoining it. A report and descriptive roll shall also be sent to the Railway Police.

897. Immediately on receiving intimation of an escape, the District Magistrate (or in his absence the magistrate in charge of headquarters) shall make an investigation into the circumstances of the escape and send a report to the Inspector-General, with such recommendations as he may, think fit to make in regard to the prison officials. No investigation by the police shall be made inside the prison except under the orders of the District Magistrate.

898. The Superintendent shall submit at once a preliminary report of every escape to the Inspector-General in the prescribed form.

899. The Superintendent shall later conduct a full inquiry into all circumstances of the escape, and forward a full report and the evidence taken, together with his recommendations regarding the conduct of the prison officers or the removal of defects in buildings, etc. A rough sketch of the prison premises from which the escape occurred, showing the posts of sentries should be sent with the report.

900. When the reports of the District Magistrate and the Superintendent of the Prison indicate that the escape has been due to negligence of prison officers, the Inspector-General shall decide whether the offence shall be dealt with in accordance with the provisions of the Indian Penal

Code or as a breach of prison discipline. Important cases of escape should be reported by the Inspector-General to the Provincial Government.

901. The Superintendent shall report also all attempts at escape to the Inspector-General.

902. The Superintendent may advertise and pay rewards for the re-apprehension of an escaped prisoner up to a maximum of Rs. 100, according to the circumstances of the escape and recapture, the degree of exertion taken or danger run by the person recapturing the prisoner, the physique of the prisoner and the degree of resistance he offered and similar considerations.

903. Whenever peculiar circumstances render it advisable to offer or pay a larger reward, application must be made to the Inspector-General, who is empowered to sanction rewards up to Rs. 250 for the recapture of any prisoner.

904. When an escaped prisoner is recaptured, the Superintendent shall send a report to the Inspector-General giving the circumstances and the date of recapture, and the prisoner shall be sent for trial and a copy of the judgment forwarded to the Inspector-General. The Superintendent shall send intimation of the recapture to all officers who were addressed in connexion with the escape.

905. Prisoners who have effected their escape from prison shall, on recapture, be placed in fetters and shall be distinguished by a ring of brass one-half inch wide soldered around each bar at its middle.

906. The name and full particulars of prisoners who escape shall be entered in the escape register.

907. As a precautionary measure against escape, no partition wall shall be constructed to abut upon, or touch, the enclosure wall unless it be of equal height with that of wall, and itself untouched by any lower wall; or the enclosure wall be considerably heightened, above the general level, where the low divisional wall touches it; no cornice or projections, or roughness of any sort, shall be built, or permitted to remain, at the top of any enclosure or divisional wall.

908. No buildings or trees of any sort shall be permitted to touch, or abut upon, any divisional or enclosure wall; but a clear space of eight feet, at least, shall divide such wall from any building or trees on all sides.

CHAPTER XXXIX.

SOLITARY CONFINEMENT.

909. The maximum periods of solitary confinement which a court is empowered to inflict are:—

- (a) one month, if the term of imprisonment does not exceed six months;

- (c) three months, in any one sentence, if the term of imprisonment exceeds one year.

910. Sentences of solitary confinement awarded by courts in Ajmer-Merwara under sections 73 and 74 of the Indian Penal Code (Act XLV of 1860) shall be executed by the prison authorities as if they were sentences of cellular confinement as explained in clause 10 of section 46 of the Prisons Act, 1894 (IX of 1894).

911. The Jailer is responsible for the due execution of the sentences of solitary confinement.

912. Every prisoner confined in a cell shall be invariably in the immediate charge of a warder, assisted if necessary during the day by a convict officer. Both by day and by night the guards shall be posted so that the prisoner may communicate at any time with a prison officer.

913. Every prisoner before being placed in a cell shall be carefully searched and every cell and every prisoner therein shall be carefully searched daily at lockup time and oftener if necessary.

914. On the admission of a convict sentenced to solitary confinement, the Jailer shall prepare a solitary cell ticket and enter the convict's name in the register of solitary confinement.

915. (a) In executing a sentence of solitary confinement, such confinement shall in no case exceed fourteen days at a time, with intervals between the periods of solitary confinement of not less duration than those periods.

(b) When the imprisonment awarded exceeds three months, the solitary confinement shall not exceed seven days in any one month with intervals between the periods of solitary confinement of not less duration than such periods (section 74 of the Indian Penal Code).

916. In executing sentences of solitary confinement four weeks shall be taken as equivalent to one month.

917. Convicts sentenced to solitary confinement shall ordinarily be divided into four batches, and each batch shall undergo solitary confinement for one week in each month.

918. When the convict has been placed in a cell, his ticket showing the date of commencement of the period of solitary confinement shall be posted outside the cell and the date of termination of the week's solitary confinement shall be entered in the ticket. The period undergone should be then recorded in the register of solitary confinement.

919. Every convict undergoing solitary confinement shall be visited by the Superintendent and the Medical Officer at their visits and by the Sub-Assistant Surgeon and the Jailer at least once every day.
